4 MP15D Megaped 1500 circular table 1500Dia H750 59Dia H29.5

#### Design

The big brother of our classic and simple pedestal table, with naughtone style. Megaped is pared down to a beautiful aluminium finish and soft square shaped base and stem, making it ideal for the workplace or large functions. The minimalistic base allows for maximum leg space and can be fitted with power and data.

#### Technical

Manufactured in mild steel tube and aluminium flat plate, then finished with a hard wearing polyester powder coat. Megaped is available in a variety of shapes and sizes, with top options that allow the table to be tailored to suit any interior scheme, or to blend into the background.

\*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

naughtone RAL colour selection for 2018 

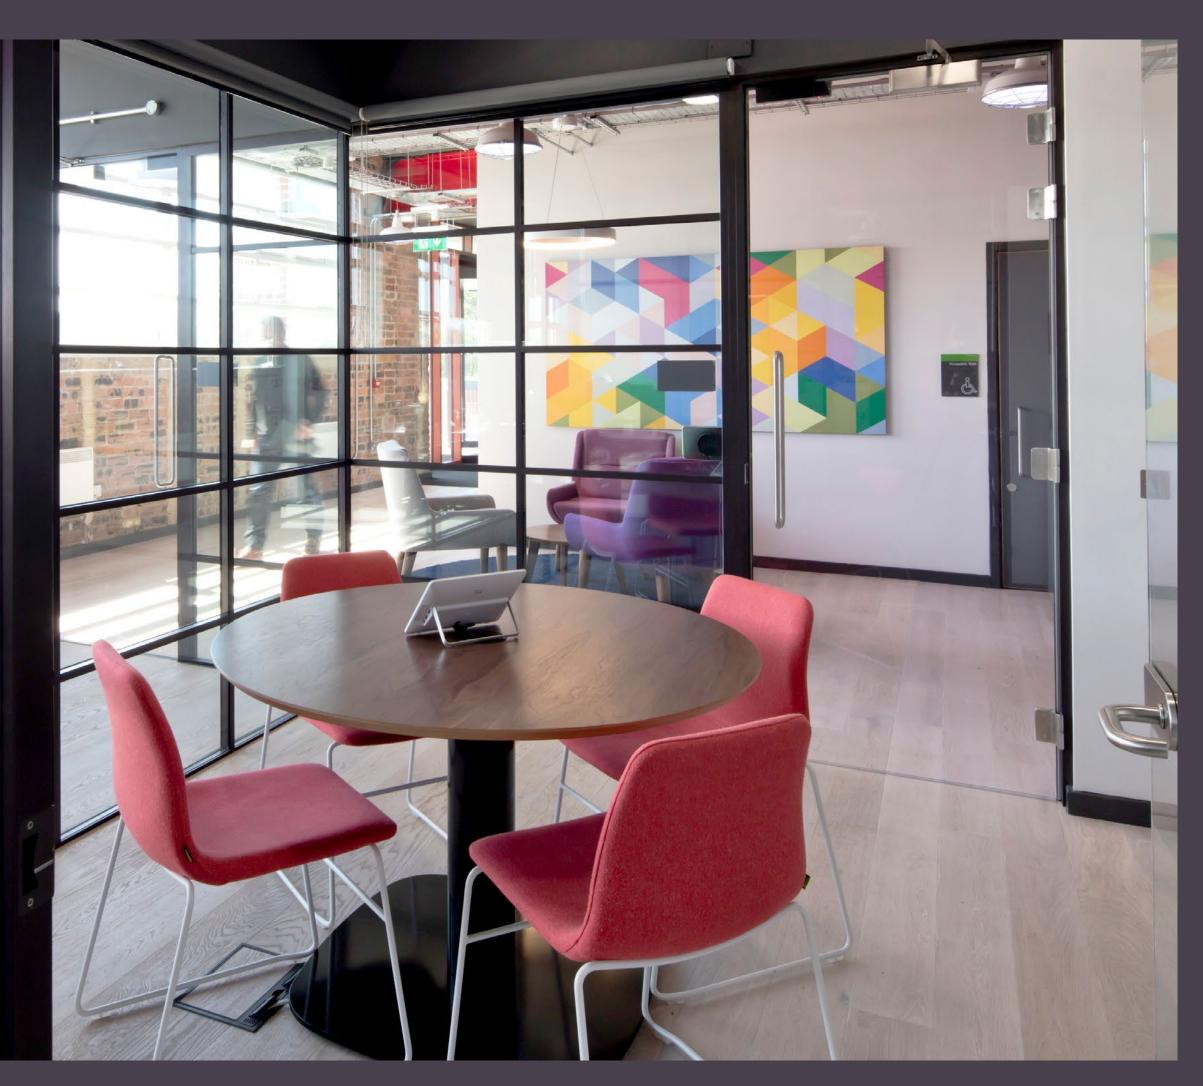

Megaped table designed by naughtone

# Megaped table technical specifications

## Testing

Our tables are designed to meet or exceed all EN performance requirements per EN 15372:2008, which includes the following tests:

- Edges of top rounded or chamfered, no burrs or sharp edges
- Shall not be possible for load bearing parts to come loose unintentionally
- Shear and squeeze points during use
- Stability under vertical force Main surface
- Horizontal static load High
- Vertical static load
- Horizontal fatigue
- Vertical impact for tables without glass

# Servicing

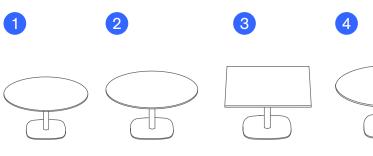

If a component is damaged and needs replacing then please email our team with an image of the damaged part and reference your order number, we will be happy to facilitate any replacements.

# Warranty

naughtone offers a **5-year** warranty across all products. Details on the terms and conditions of naughtones warranty can be found <u>here</u>

## Measuring Guide

## Megaped table environmental product summary

## Environment attributes

- naughtone is FISP and ISO14001 certified
- naughtone UK production facility is ISO14001:2015 certified
- naughtone is **FSC**<sup>®</sup> certified
- 55.1kg total weight
- 57.5% Recyclable (base and fixings)
- 42.5% Reusable (top)
- 42.6% Recycled content (base, top and fixings)
- Indoor Advantage<sup>™</sup> Gold ANSI/BIFMA Furniture Emissions Standard (M7.1/X7.1-2011 R2016) and ANSI/BIFMA e-3-2014e (Credits 7.6.1, 7.6.2, 7.6.3)

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications

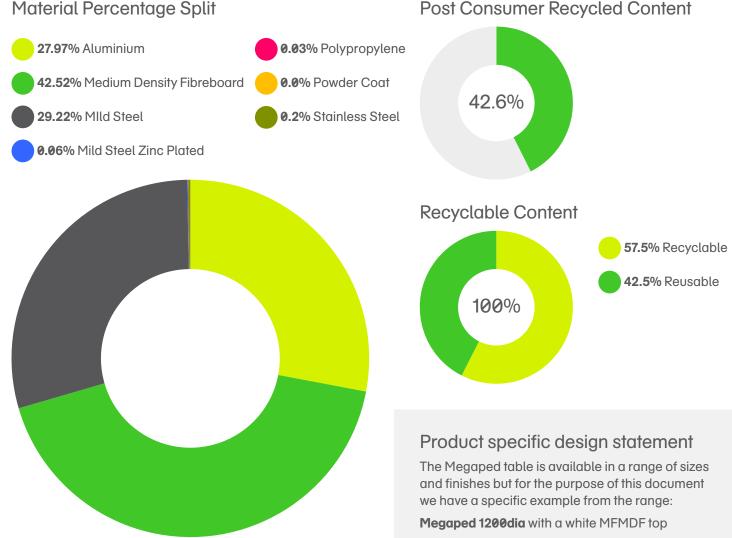

# Megaped table environmental product summary

## **CSR** statement

naughtone has always considered the environment throughout our design and manufacturing process. We understand that as we continue to grow, so does our potential impact on our surroundings. As most of our raw materials are simple, we have great control over their sources, and are proud be able to offer FSC® certified upholstered products and use recycled metals in our table ranges. The addition of our North American manufacturing provision also helps to keep manufacturing miles to a minimum, as our market continues to grow in the USA. Finally, naughtone offers a 'bring back' programme, where the client is able to return the product to our factory, where we will be happy to breakdown and recycle the parts for you.

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to naughtone A chain of custody requested after an order has been placed or delivered may be difficult to recover Figures stated in the Environmental product summary may vary based on model and options selected, we have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages, material variables are likely to affect the figures which may result in higher or lower percentages

This document will be reviewed and updated periodically and is subject to change without notice

FSC<sup>®</sup> certified products leuponreques

## Post Consumer Recycled Content

The Megaped base, top plate and stem are manufactured from mild steel, with the stem being a thick walled tube.

The surface of the base is finished with a polyester powder coat.

The table top is made from MFMDF with the raw edge being polished and finished with a hard wearing spray lacquer.

The stem, base and table top are supplied unassembled and bolt together easily with very few fixings.

## 1 Design

Every aspect of the naughtone product ranges has been designed with the environment considered, from ethical material choice and production efficacy to storage efficiency and ease of disassembly.

Dense foam sets and resilient fabrics are selected for their longevity and effectiveness across sectors. Durable high quality finishes such as powder coated bases in a range of colours allow clients the freedom of finish options. Finish samples are available allowing clients to make informed decisions and retain to add to their finish libraries for future reference.

## 2 Raw Material

Local supply of raw materials is employed for the production of our products when possible, procured from suppliers that are quality inspected for extraction methods and meet the highest environmental standards.

## 3 Production

As many of our products are assembled by hand the energy expenditure wasted from machinery during the production process is kept to a minimum.

All fabrics are cut to ensure optimum efficiency with fabric usage and reduced waste consumption per unit.

All production sites have recycling facilities for any excess product that cannot be used elsewhere, which is then managed by a professional third party.

## 4 Distribution

Distribution of naughtone products generally occurs directly between the manufacturing site to the client. Production is localised when possible to the US or UK regions, reducing the carbon footprint and miles travelled for each product.

Many items are flat packed for delivery or shipped disassembled with efficient, minimised packaging; optimizing the transportation vessel space.

naughtone products do not require energy or water to function, thus no environmental exchange takes place and no waste is generated during the life of the product.

The only foreseeable need is the cleaning of the product for general maintenance. This includes regular vacuuming to remove dirt and dust particles on upholstery items, and using a dry or damp cloth to wipe non-upholstery items.

This is recommended for all products utilised under conditions of normal wear and is expected to have negligible environmental impacts.

Although our products are durable and demonstrate timeless design, naughtone products are manufactured in such a way that they can be easily disassembled at the end of life and most of the componentry can be either recycled or re-used as applicable.

As a company we are also happy to accept the return of products, to help re-home or recycle furniture or components at the end of the products useful life.
