

TERRAZZO TABLE

Design by Daniel Enoksson

Swedish designer Daniel Enoksson's Terrazzo Table features a round- or square-shaped table top crafted in highly functional electro-galvanized steel and powder coated to make it extra resilient. For the designer, terrazzo was an obvious choice to use as the base, partly due to its excellent durable properties, but more importantly, it has such a unique and distinctive finish that makes an effective contrast against the stark simplicity of the table top. Designed to withstand the outdoor environment, the table is suitable for all kinds of indoor and outdoor use.

CONSTRUCTION

Fine marble and dyed cement are poured into a specially developed mould to create the unique terrazzo stone base. The stone is then hand polished, and protective gliders are placed underneath.

The terrazzo base is joined to the sheet metal top by a long central bolt that runs through the pillar.

Requires assembly.
