Everywhere Tables

Adaptable tables for active spaces

Everywhere Tables

Designed by Dan Grabowski

Elegant and versatile, Everywhere Tables is a family of meeting, standing height, training, cafe and occasional tables, all sharing a simplicity designed to minimise the visual chaos in an active space. With a choice of sizes,

shapes, heights, bases and finishes, including power options, the tables bring a sense of calm and order to any environment, regardless of the configuration.

Made for Meetings

Meetings flow better when everyone's needs are covered. Use oval table tops to ensure no one feels left out, or gather round a tapered video-conference table to make sure everyone in the room is visible. Whether you need a large table for a team meeting, or something smaller, there is an Everywhere Table to suit.

Material Beauty

Use different materials to change the feel of your Everywhere Table. Pair a sophisticated veneer top with a polished base for a premium finish. Or place a laminate with a warm and velvety texture alongside a painted base for a contemporary look. Whatever your choice, Everywhere Tables can be configured to satisfy any aesthetic.

With solutions for any table application, Everywhere Tables can help you design settings for every purpose, from video conference meeting rooms to cafes and lounges.

#8: Links from non-relevant sites or sites/pages/content outside your niche won't help you rank

Learning Made Easy

Use Everywhere Tables to create dynamic training spaces. Rectangular, trapezoidal and curved tops provide the variety and flexibility to make settings which support different types of learning. Create formal classrooms, learning studios and training rooms, adding castors to provide extra flexibility and quick reconfiguration.

Stay Social

Social spaces come to life with Everywhere Tables, for instant conversation and relaxation. Single column bases on coffee, café and standing height tables bring variety to cafés and social spaces. Larger tables encourage impromptu gatherings for a mix of people.

Details and Features

Power and access options

Café and occasional tables

Tables to support collaboration from standing height to conference tables

Training tables including trapezoid shapes with castors

Café tables and coffee tables bring people together for an informal huddle or chat.

Visual Continuity in Every Single Detail

When exploring designs for the Everywhere Table project, Dan Grabowski focused on every detail, including one little piece that wouldn't even show unless you turned the table upside down. "To me," he says, "a Herman Miller product needs visual continuity in every single detail, whether it's on the top, the bottom, inside or out."

About Dan Grabowski

Grand Rapids, Michigan designer Dan Grabowski grew up understanding the importance of problem-solving. "When my dad needed to create or repair something, he would design a solution and then we would go off together and build it," he recalls. "We built everything from cabinets to apartment buildings. That's how things were done in our house."
