

COLINA

arper

Colina

Soft yet sculptural, Colina is a family of armchairs, elegant in silhouette and generous by design. Though originally created to complement the fluid architecture of the modular sofa system Loop, its adaptive, organic form and diverse range of options invites inclusion in many contexts from offices to public spaces to homes, in groups or alone. Its open character encourages dialogue of all sorts in architecture as well as among colleagues and friends.

Available in 3 sizes: small, medium and large upholstered in fabric, leather or faux leather. Small, medium and large versions are available in an upholstered solid base. In addition, Colina Medium is available in cantilever, sled and 4-leg wood base.

Designer

Lievore Altherr Molina, 2014

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients of the prestigious National Design Award (1999) in Spain where they practice and teach extensively.
