

ARTOME

ARTOME
Enabling imagination

Far more than furniture

Redesigning audiovisual

Artome enables the imaginative use of spaces.
Our smart furniture brings a new kind of ease
and adaptability to audiovisual technology.

Revolutionary AV-solution

Factory-made

Eliminates the need for electrical planning and cabling.

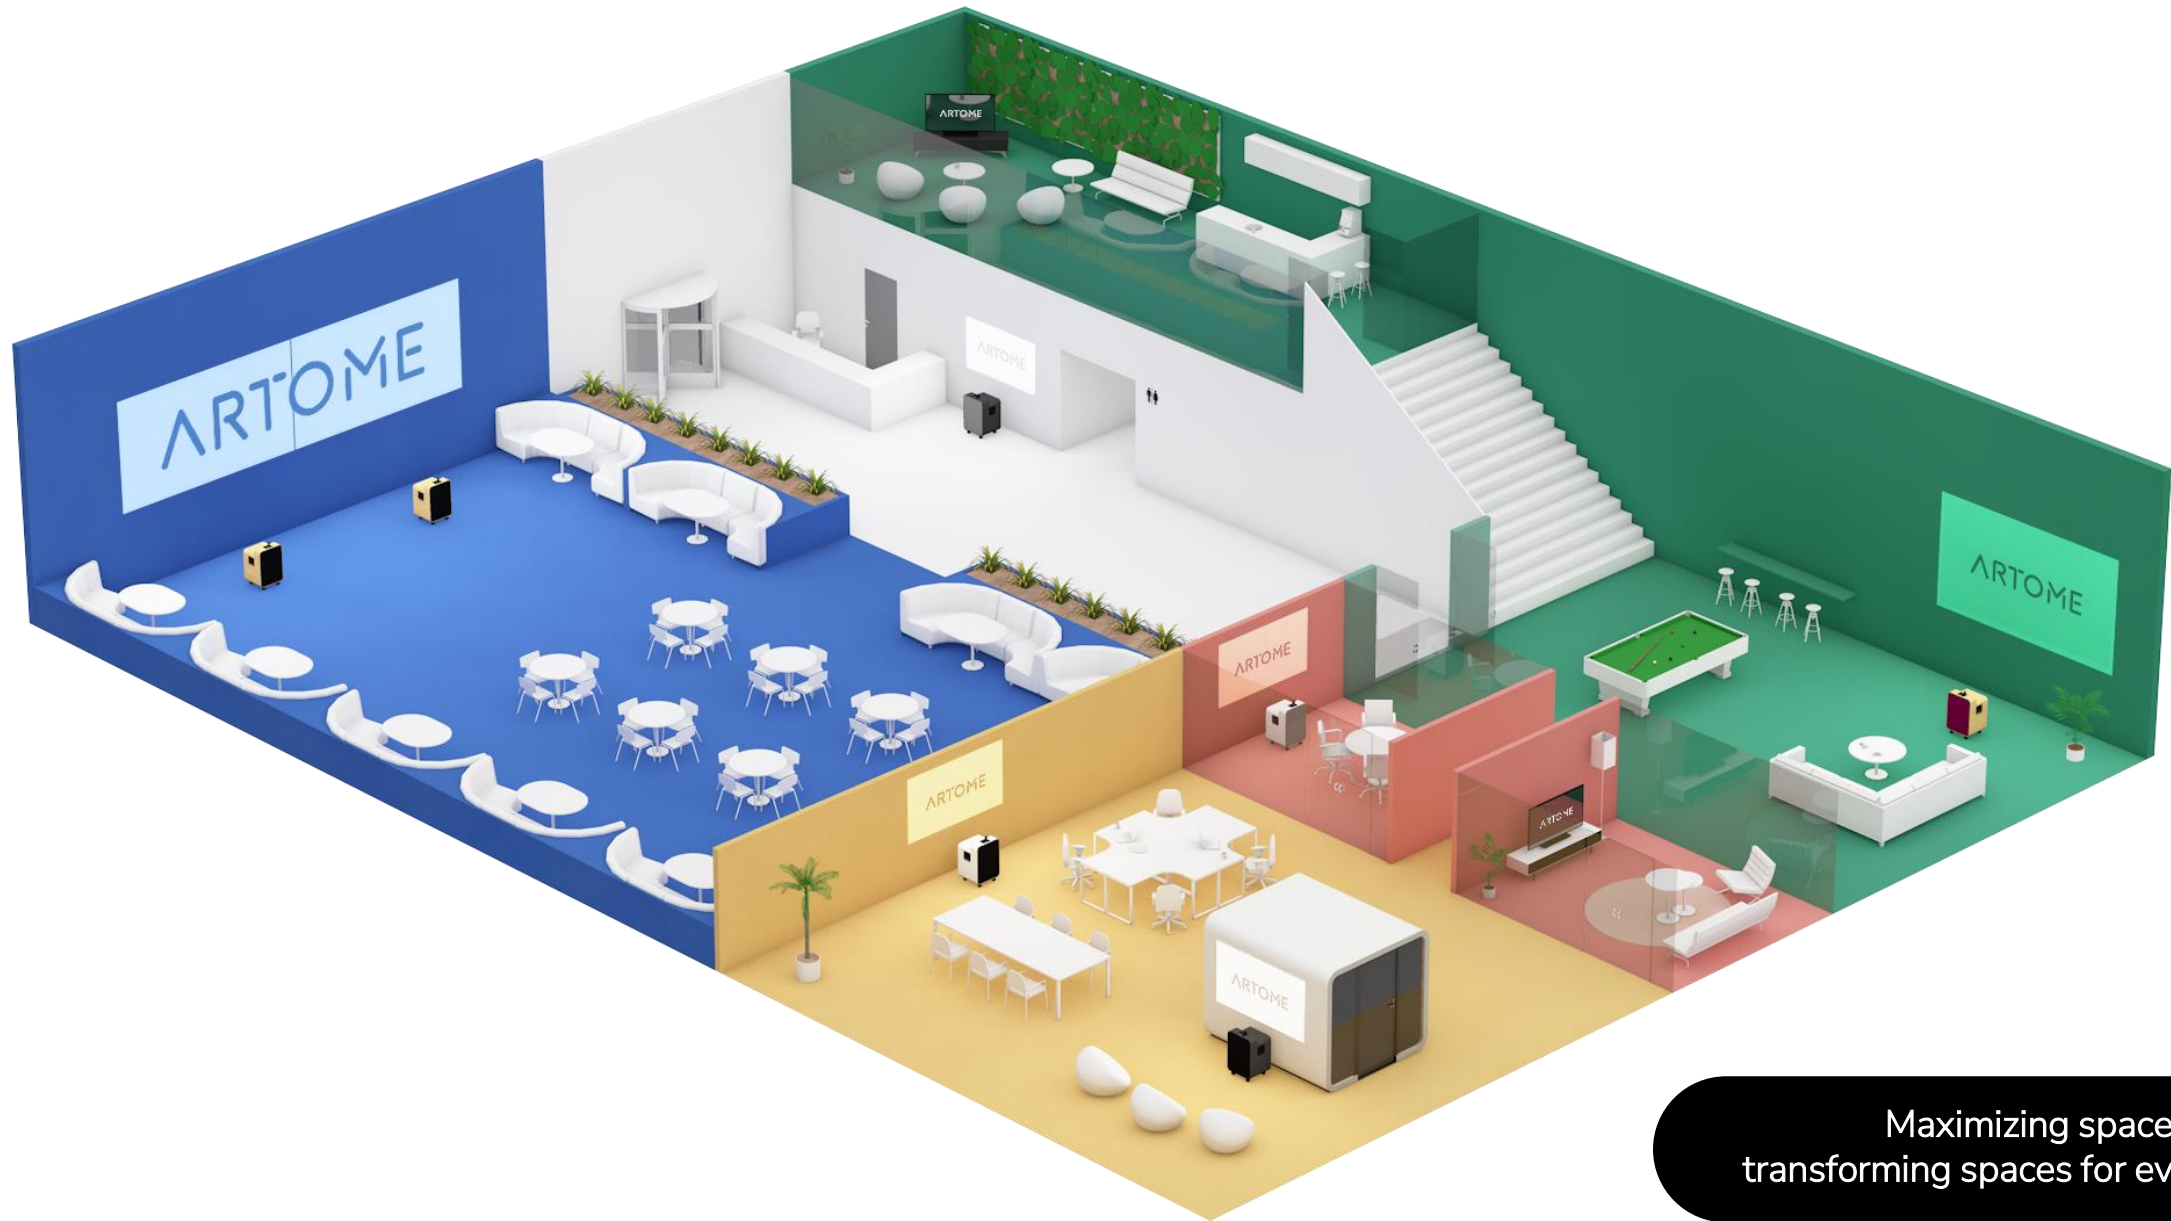

Installation free

Saves both time and money in construction.

Movable

Transforms any space for presentation, learning and hybrid working.

Maximizing space utilization by transforming spaces for evolving needs.

The easiest solution

To adopt

No electrical planning or AV expertise is needed.

To use

In a factory-made solution all the functions work seamlessly together.

To trust

The whole smart furniture set up is being supported by a single point of contact.

a power plug is all you need
