

# ARCS SHADES

DESIGN BY MULLER VAN SEVEREN

HAY

## ARCS

Created for HAY by Belgian duo Muller Van Severen, Arcs reflects the designers' love of showcasing materials by focusing on simple, elemental shapes and the intensity of colour in an object. Arcs is a series of lighting designs formed from a continuous chain of curved arches that form a single element, using spatial volume to create a scalloped silhouette. Arcs is made from steel and comes in a choice of vibrant colours or with a mirror surface that reflects and magnifies the natural light. The different variants and mounting solutions give Arcs a versatile quality that makes it easy to integrate in most interior spaces.

Muller Van Severen was founded  
in 2011 by Belgian artist duo  
Fien Muller and Hannes Van  
Severen. The couple has always  
been on an inspired quest for  
sculpturally interesting furniture  
objects, and their work sits  
somewhere between design and  
art, drawing on their passion for  
architecture and materials. They  
have won countless awards and  
collaborated with prestigious  
international museums and  
galleries.

Formed from a continuous chain of curved arches that form a single element, the Arcs Shade creates a spatial volume that plays with light and shape.

For HAY, Muller Van Severen has designed the Arcs Lamp Shades, Arcs Vases, Arcs Candleholders and Two-Colour Tables.

A shared love of colour and materials is often the inspiration behind many of Muller Van Severen's designs. The designer duo is constantly seeking new ways to present the natural beauty of the materials they use, striving to give the materials their own distinct presence.

Arcs is crafted  
in steel and  
is available in  
several different  
colours or with a  
mirror finish.

Muller Van Severen's home in  
Evergem / Belgium.

The shade can be used as a table lamp or pendant lamp, both options forming contrasts in depth, colour and shape.

The Arcs Wall lamp provides a soft, ambient up and down light that plays with shapes and shadows.
