

Result & Pyramid | New variants

Originally created by Friso Kramer and Wim Rietveld while working at Ahrend in the 1950s, the Result collection has been updated in new models and colours. The iconic chair is now available with armrests, which elevates the functionality and comfort level. Fully upholstered versions are now also offered, as well as the addition of a new Tomato Red frame for both the Result Chair and Pyramid Table collections- a vibrant tone that adds a contemporary slant to the classic design.

RESULT CHAIR and PYRAMID TABLE

Design by / Friso Kramer and Wim Rietveld

for Ahrend, relaunched together with HAY

Created to be adaptable, light and strong, the Result chair and Pyramid Table are the first and last word in cutout sheet steel construction. The designs, originally created by Friso Kramer and Wim Rietveld while working at Ahrend in the 1950s, are being relaunched by HAY together with Ahrend. At the time of their initial launch, they were regarded as a triumph in their innovative use of sheet steel, giving new direction for its use in organically shaped products. Today, both as individual pieces and as a collection, they are notable for their sparing use of materials, their simplistic construction and for the fact that they are light enough to move about with considerable ease. These lasting designs, proved in real environments over generations; functionally excellent and aesthetically light, for life.
