

AAC 155

DESIGN BY HEE WELLING & HAY

HAY

AAC 155

Part of a long-term collaboration between HAY and designer Hee Welling, the AAC 155 combines the qualities of a lounge chair with the best of an office chair, fusing optimal comfort and modern aesthetics to create a refined and functional task chair. Designed to meet the growing needs of flexible seating in the workplace, the higher backrest and generous seat ensure all-day comfort, while the five-caster base, tilting mechanism and gas lift elevate the functionality. Both the base and shell are available in different options, providing a multitude of design combinations that give this chair versatility in a wide range of corporate, public and private contexts.

Hee Welling

HEE WELLING

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA) and has been nominated as the Danish designer of the year in both 2013 and 2014.

Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centred around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a great sense of proportion and quietly elegant looks. For HAY, Welling has designed the About A Collection and the Hee Collection.
