

Bound Screens

With an inviting aesthetic and quiet nature, Bound Screens bring a sense of focus and space division to workspaces. Mount them to a row of desks to create an instant boundary, improving the sound and visual quality of your office.

Benefits

- Personalise your screens with a pinnable boundary to block out visual distractions, allowing for better focus in a more serene environment.
- Bound Screens are available in 30mm width with an option for sound absorption, providing a quieter workplace environment.
- Bound Screens are made from 60 percent recycled content and are 99 percent recyclable—helping your workplace to become more sustainable.

Warranty

12-year

Key Features

1. Back-to-back Screens

Bound Screens are transom-mounted and designed back-to-back, providing privacy on both sides. (They're also available as surface-mounted and single-sided.)

2. Gallery Panels

Bound gallery panels are installed on the end of a run, providing privacy from walkways or adjacent workstations.

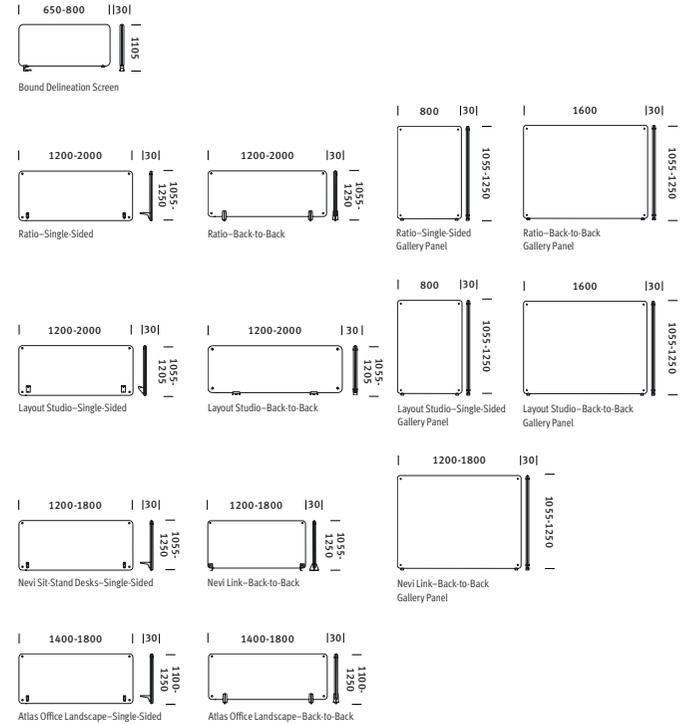

3. Compatibility

Bound Screens are compatible with Ratio, Nevi Link (shown here), Nevi Sit-to-Stand Tables, Atlas Office Landscape, and Layout Studio.

4. Acoustic Properties

Bound Screens are available in 30mm width, with an option for sound absorption, providing a quieter workplace environment.
