Aleta Executive

Finding elegance in the subtle

Collection designed by Jaime Hayon, 2023

It's a great moment for the Aleta family: the comfort of the iconic chair designed by Jaime Hayon has been extended to new pieces such as the Aleta Executive collection. On this occasion we will say for once that more is always more. Not by excess but by balance, and by the undeniable strength in the creative concept that arises this collection designed to make meetings more comfortable and productive.

Aleta Executive represents how we bond with the designers of each collection, expanding the families, maturing hand in hand to create new pieces based on new behaviors and solid creative concepts. Always without taking the present for granted. We may not be able to predict the future, yet we can invent it with the best.

If we have learnt something all these years is that the future of design will undeniably be based on collaboration. Aleta Executive is a natural transition that leads to new ways of working, collaborating and promoting inclusive habits between users in the workspace environment. It is here to make meetings easy.

"Aleta Executive represents how we bond with the designers of each collection, maturing hand in hand to create new pieces based on new behaviors and solid creative concepts."
