Finding elegance in the subtle

Collection designed by Jaime Hayon, 2023

It's a great moment for the Aleta family: the comfort of the iconic chair designed by Jaime Hayon has been extended to new pieces such as the Aleta Executive collection. On this occasion we will say for once that more is always more. Not by excess but by balance, and by the undeniable strength in the creative concept that arises this collection designed to make meetings more comfortable, elegant and productive.

Aleta Executive represents how we bond with the designers of each collection, expanding the families, maturing hand in hand to create new pieces based on new behaviors and solid creative concepts. The range designed by Jaime Hayon includes a comfortable lounge chair, ready to be observed from every angle. The lounge chair stands out for the elegant smooth lines of its backrest and its comfortable, and generously proportioned seat. An ideal piece for both contract and residential spaces, as it shines in any corner of the office such as welcome areas, lobbies and presidential rooms but it also a favorite for living rooms and hospitality interiors.

“Aleta Executive represents how we bond with the designers of each collection, maturing hand in hand to create new pieces based on new behaviors and solid creative concepts.”

Aleta's generously proportioned seat has been designed to lounge, collaborate and get inspired every day.
