Noha Lounge Chair

Designed by L + R Palomba

Catalogue - EN

Ludovica + Roberto Palomba

Ludovica + Roberto Palomba, the golden couple of Italian design, for over 25 years have been designing timeless products that are far from trends. First of all, they have a philosophical approach: the search for the essence in every project, closer to the concept of balance of oriental heritage rather than to the nordic style, the goal of their work is not only an aesthetic result but for wellbeing.

A bold design, without inconsistencies, equidistant from the excess in the decoration and radical minimalism, the result of a selection of values and themes rather than a downsizing project. The curved lines of the organic forms and the strict squareness, conflicting worlds that they've been able to make them talk to each other, recognizing them as absolute protagonists.

NOHA LOUNGE

A simple gesture for wellbeing

Collection designed by Ludovica + Roberto Palomba, 2023

Since the beginning of our relationship with Italian architects Ludovica + Roberto Palomba, they have always helped us reflect on the importance of balance. Balance between designing sophisticated silhouettes with comfort and functionality as key features. We both share a deep commitment to creating friendly shapes with the highest quality materials to approach wellbeing in the most holistic way. Expanding collections within a successful collaboration that started with the Levitt range in 2007 is like adding more words to a common language. It is not only a way to continue on a path of organic success but also to explore new perspectives and visions. It's like adding new nuances and

meanings to an ongoing story, making it richer and more complete. In words of its designers, "Noha is a simple gesture, a pillow folded in the act of providing a comfortable seat, highly versatile, perfectly fitting into both workspaces and beyond. Our broadest and most ambitious range up to date, designed to create inviting and inspiring corporate environments. The collection designed by Ludovica + Roberto Palomba includes a sophisticated lounge chair to create extra comfortable and friendly corners in corporate, domestic and hospitality settings. A highly versatile piece that connects users and provides them with a pleasant space in which to think, brainstorm, collaborate and unwind.

Reception area | Noha lounge chair with flat swivel base and metal armrests and Serra low table in black finish

WELCOMING, SOFT, SEXY

Noha lounge helps to promote soft working and kinder and more inclusive behaviours in offices. With welcoming, soft and sexy shapes, the lounge chair brings new solutions to make the workplace the place to be.
