

Team Tables

Scope

Designed to meet the demand for more informal and lighter work settings. Scope Team Tables are a simple table for people to work at, either as a team, collaborating on a project or as individuals, getting more focused work done.

A table for teams, a table to focus.

With an emphasis on the more flexible working areas, Scope Team Tables have been developed with simple necessities in mind.

Softer, more residential detailing on tops and screens and legs that are inset, giving the table a lighter, floating aesthetic.

Aesthetically and physically lighter

Softer, more residential detailing on tops such as chamfered edges and rounded corners also bring a more tactile feeling to the Team Tables.

One-piece tops allow people to sit and work comfortably from all sides of the table and offer a cleaner, softer workspace.

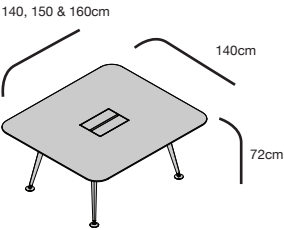

Functional features as standard

With access to power at the table, either via a powered grommet or via flap access and cable management that is easily accessed from beneath the table.

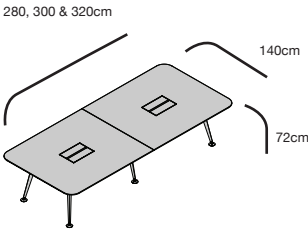

Privacy that is easily adjusted using movable Universal screens. Quickly control the side to side or face to face privacy. Universal screens have an open section allowing cables to pass underneath if necessary.
