### CABLE MANAGEMENT

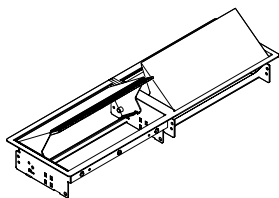

**A** Supply cable x1

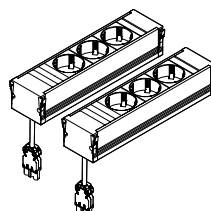

**B** 1 Metre extension  
cable x2

**C** Distributor x1

**D** Power Access  
Coni Duo x1

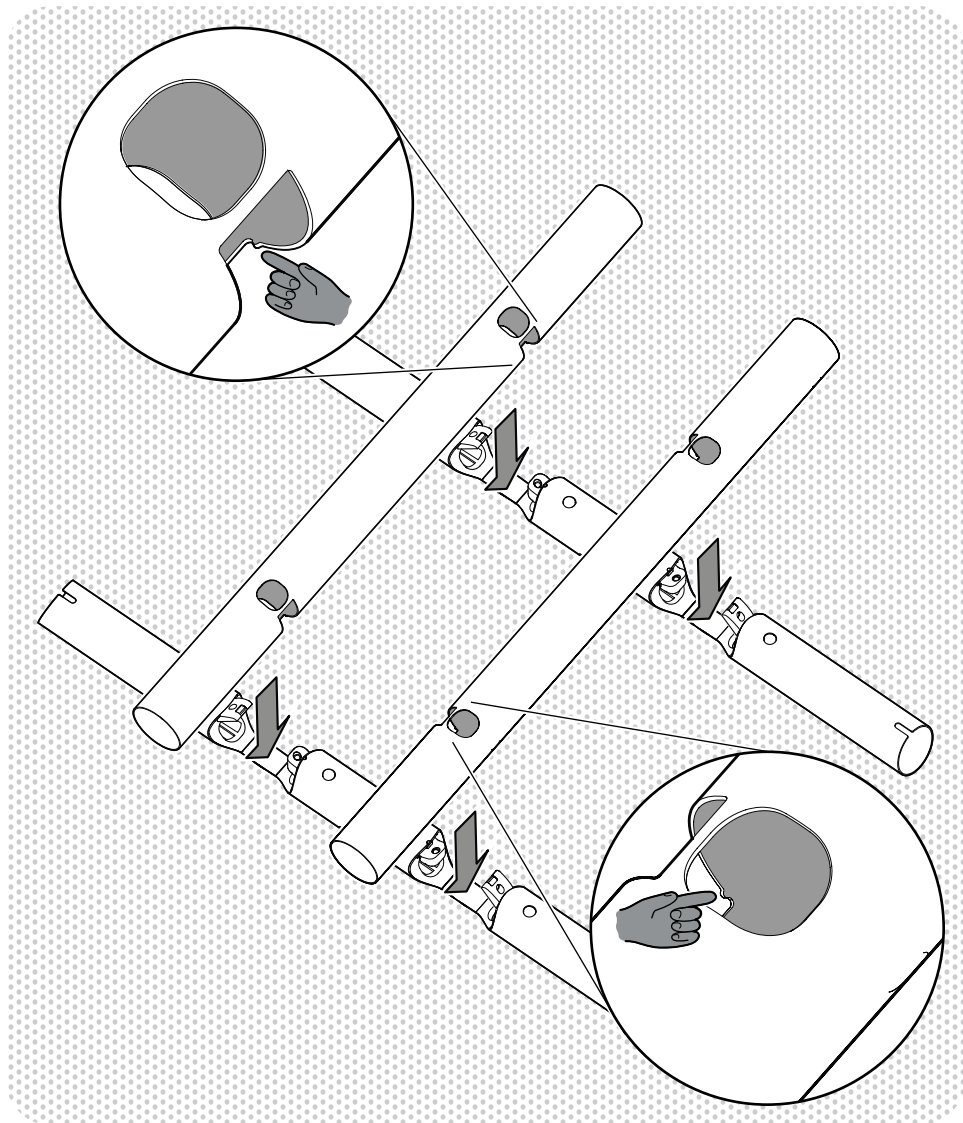

**E** Power Module  
Coni x2

1.

Place the crossbars **B** in the openings of the leg sections **A**.  
Make sure the small tabs in the crossbar openings are aligned as illustrated.

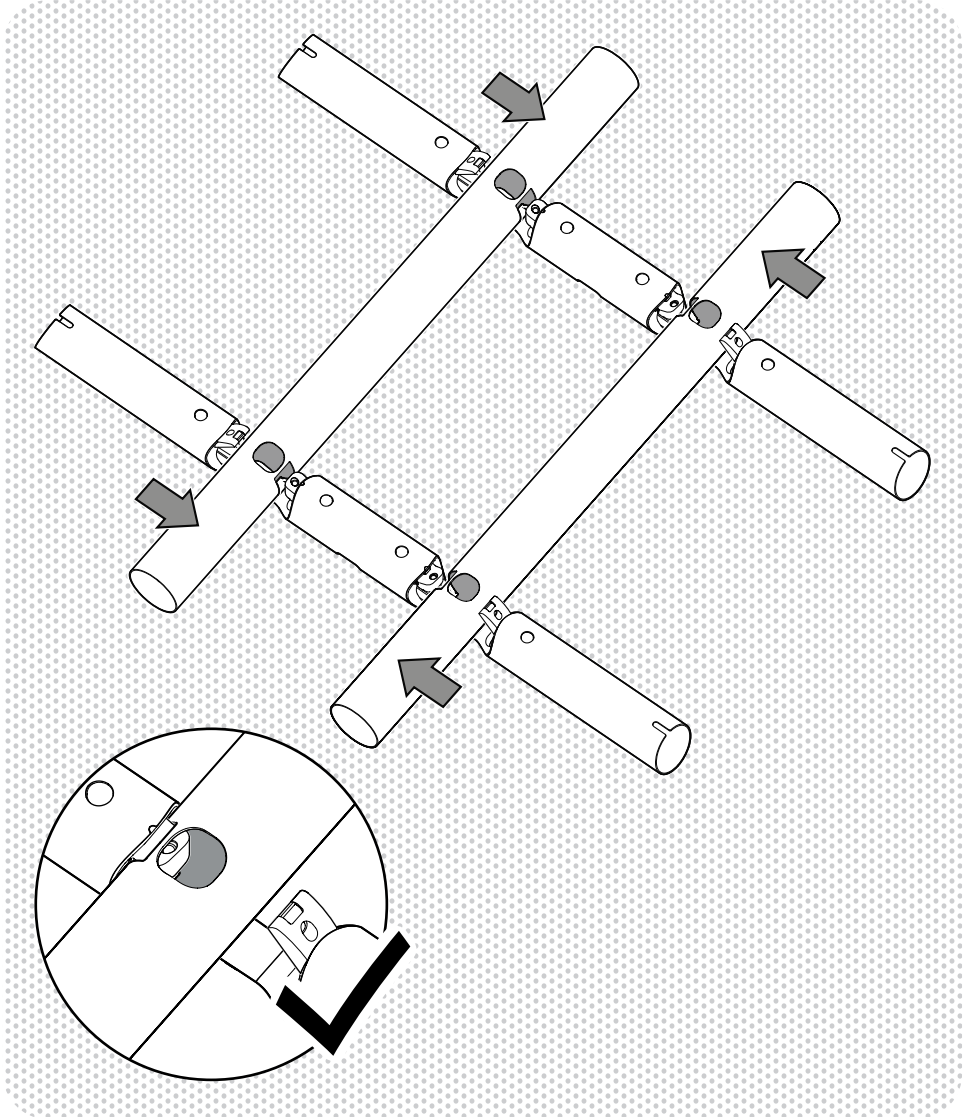

Two people are required to carry out the table assembly.

2.

Slide the crossbars towards the middle of the leg sections, making sure they slide over the plastic insert.

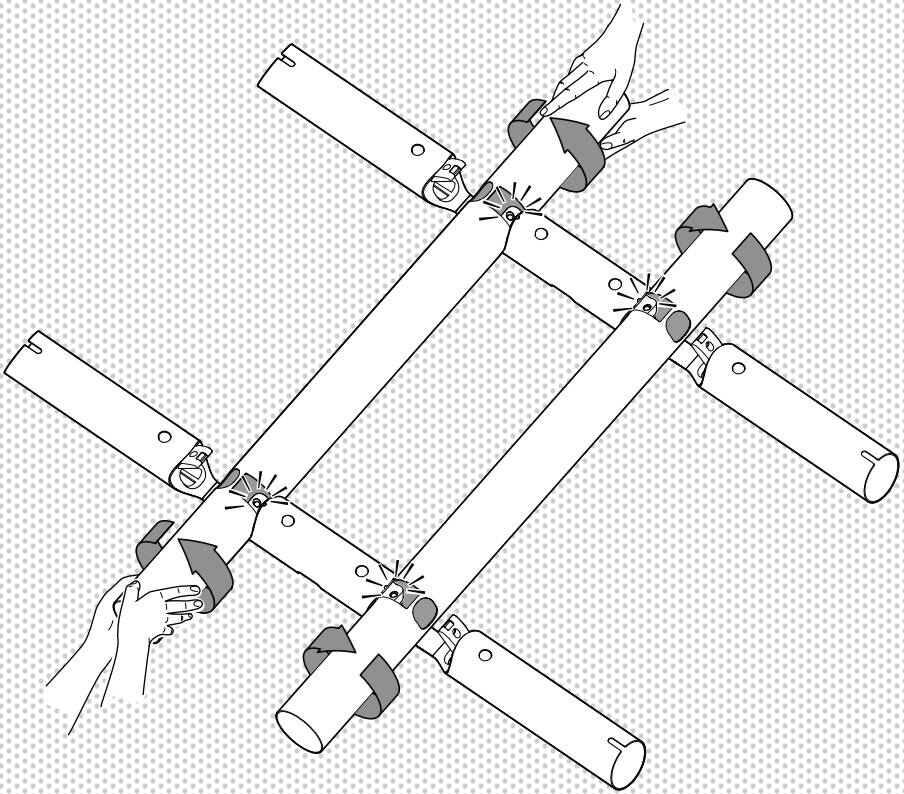

3.

Rotate the crossbars away from the centre, so the small tabs lock into the plastic insert.

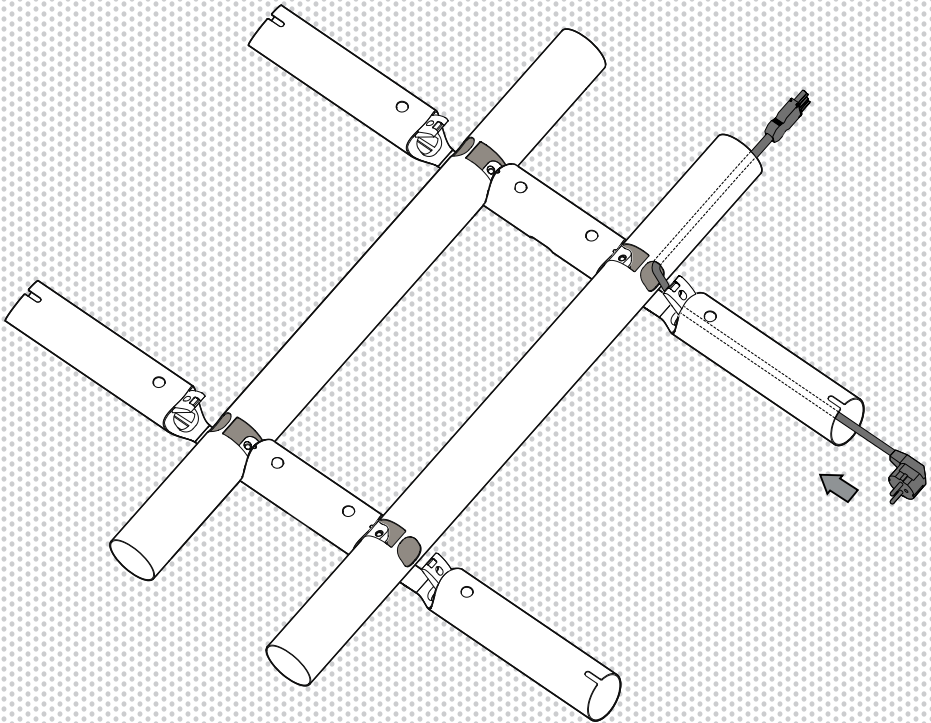

Make sure it is correctly locked  
into place at each ends.

- CABLING THE TABLE -

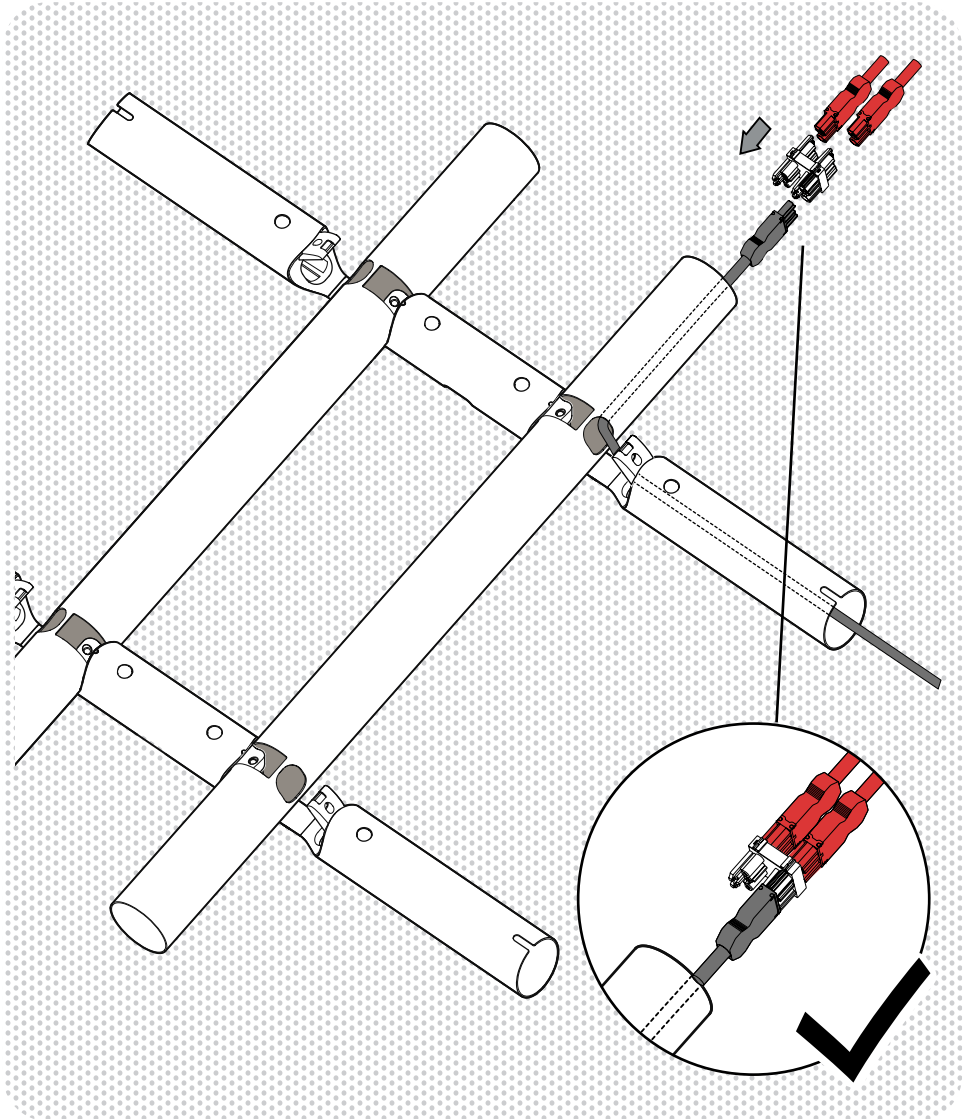

4.

Insert the supply cable **A** by pushing the plug through the end of the leg. Pull the head out and insert it again into the crossbar through the hole and push the cable out from the crossbar through the right end.

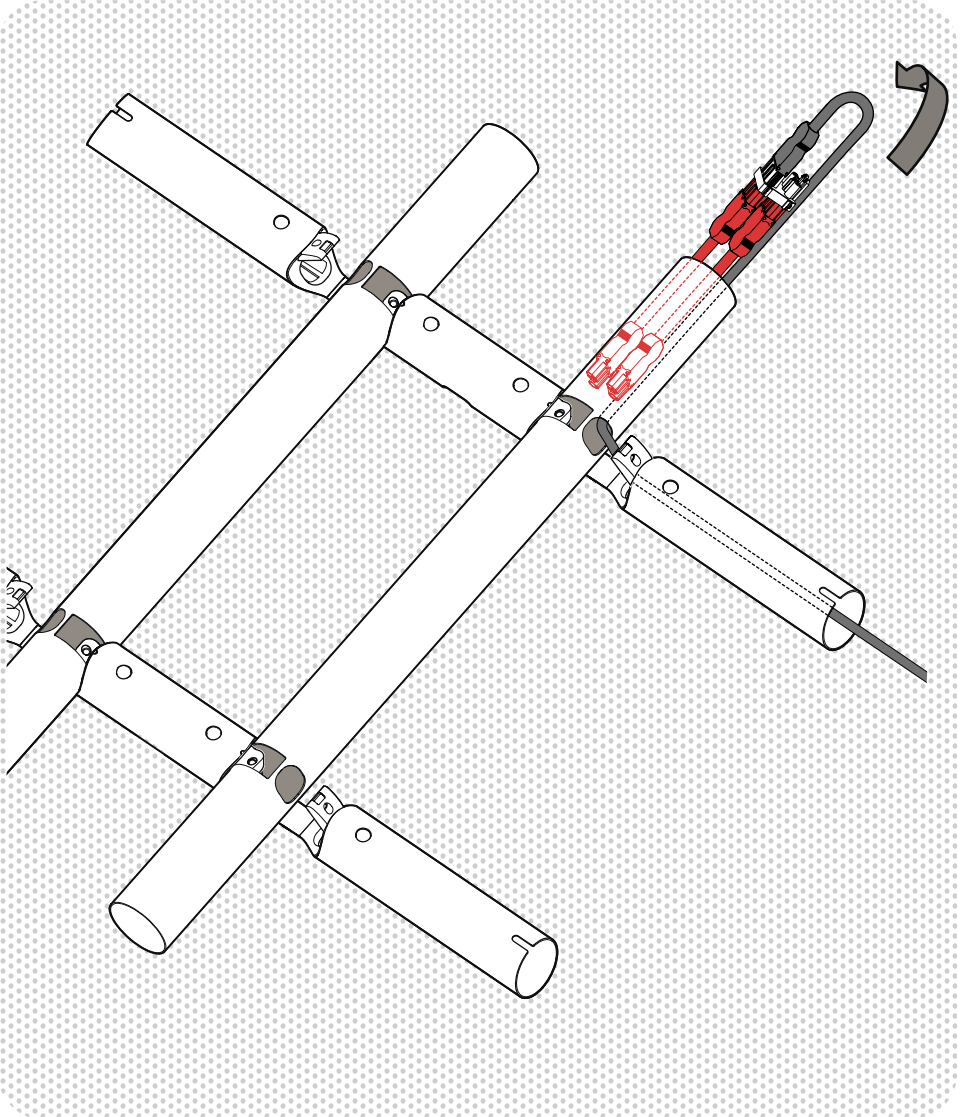

5.

Plug the supply cable **A** together with the two extension cables **B** into the distributor **C**

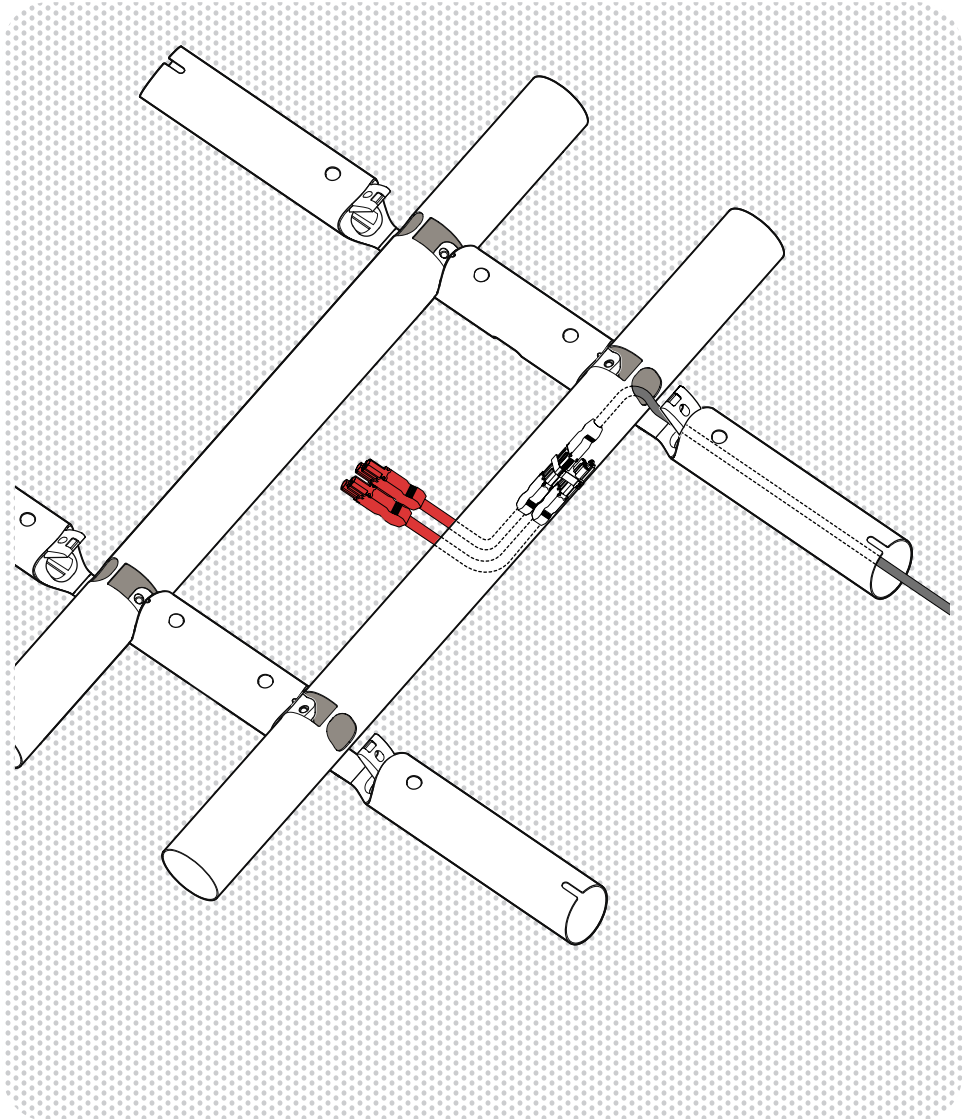

6.

Insert the cables and distributor back into the crossbar, starting with the extension cable heads.

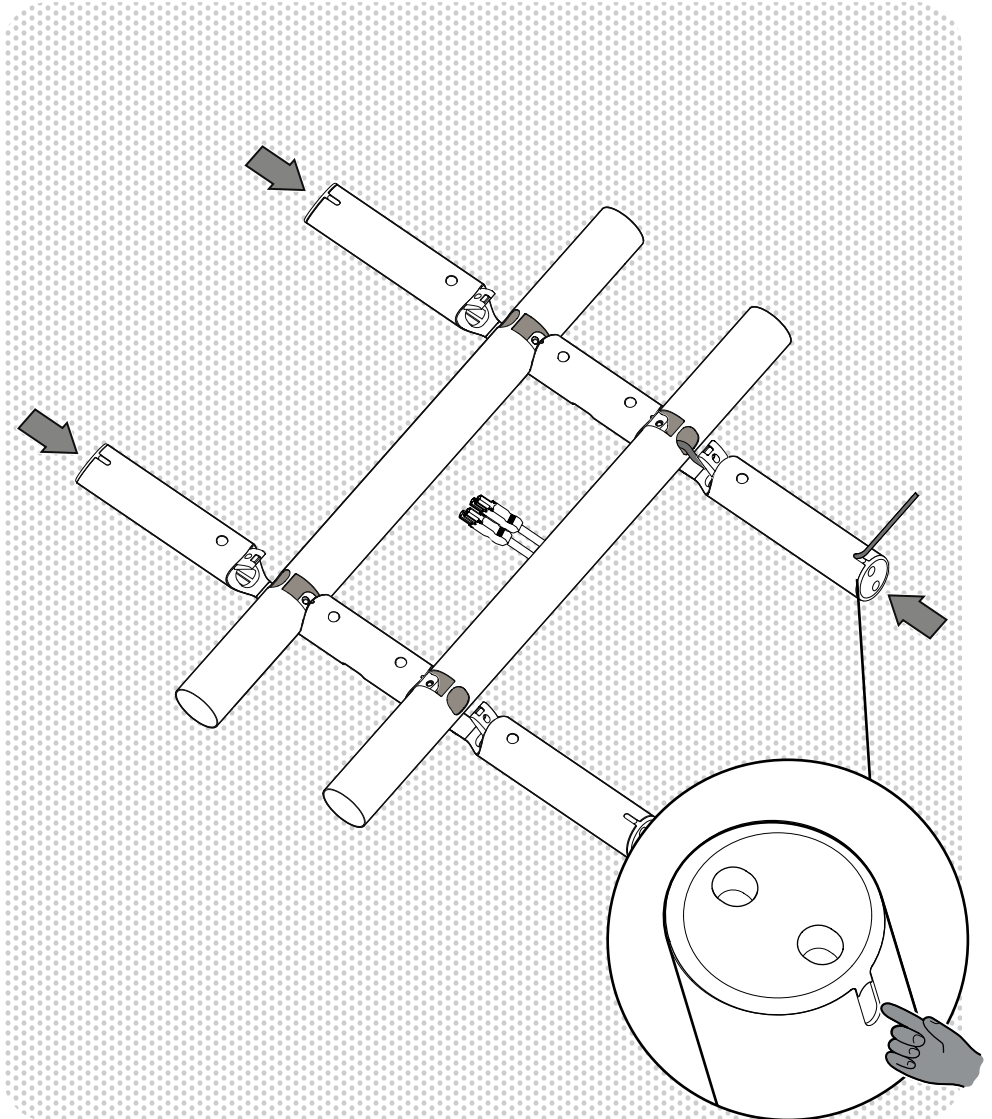

7.

Pull out the two extension cable heads through the hole in the middle of the crossbar.

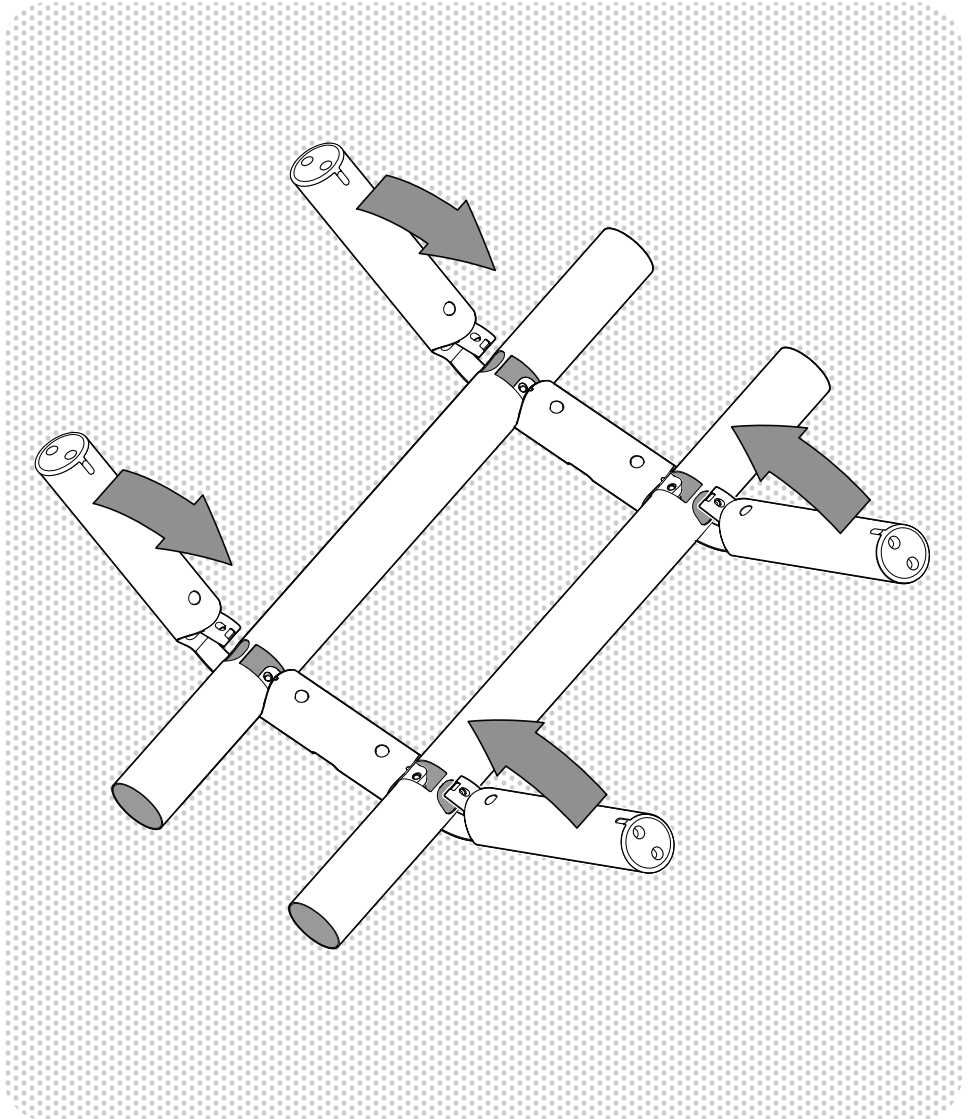

8.

Insert the feet, making sure the supply cable is correctly placed in the cut-out.

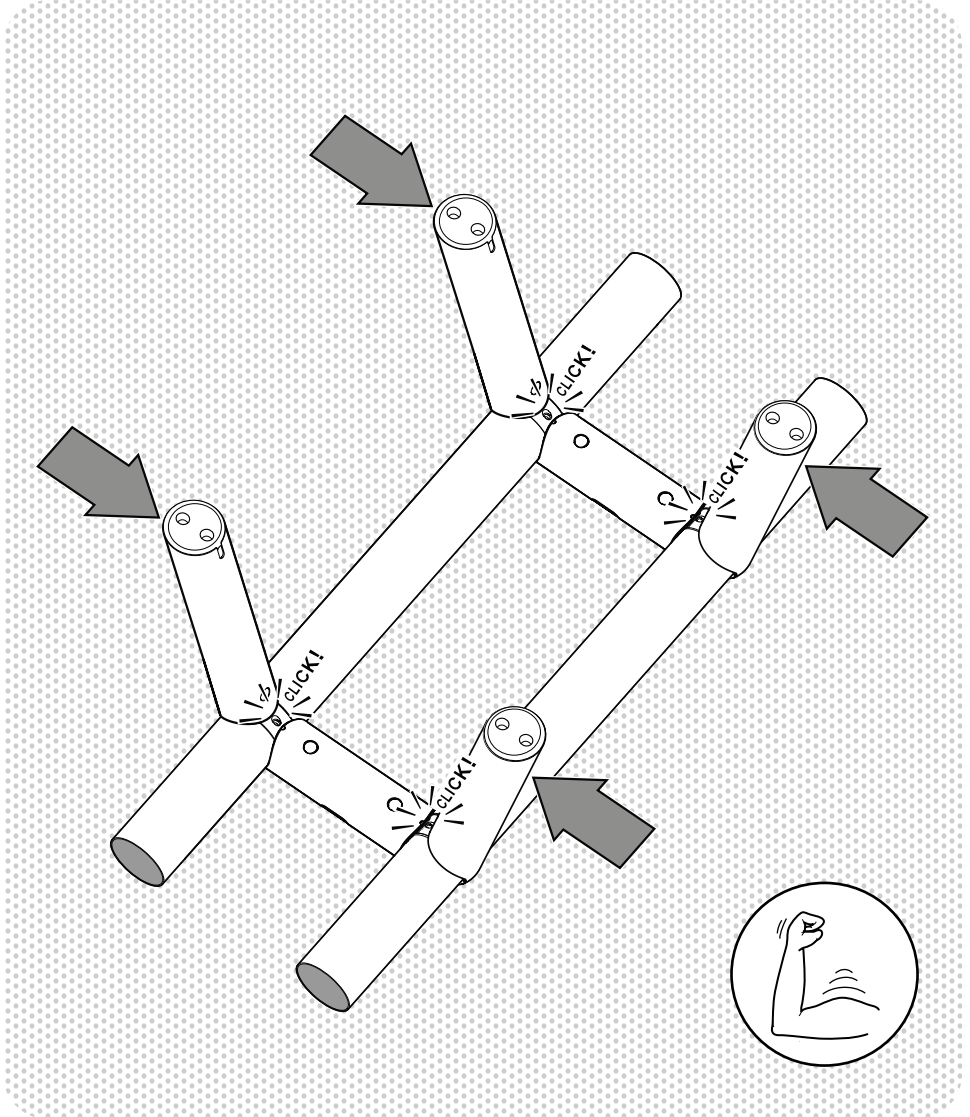

9.

Carefully bend the legs towards the centre.  
Push down on the crossbars to keep them in place.

10.

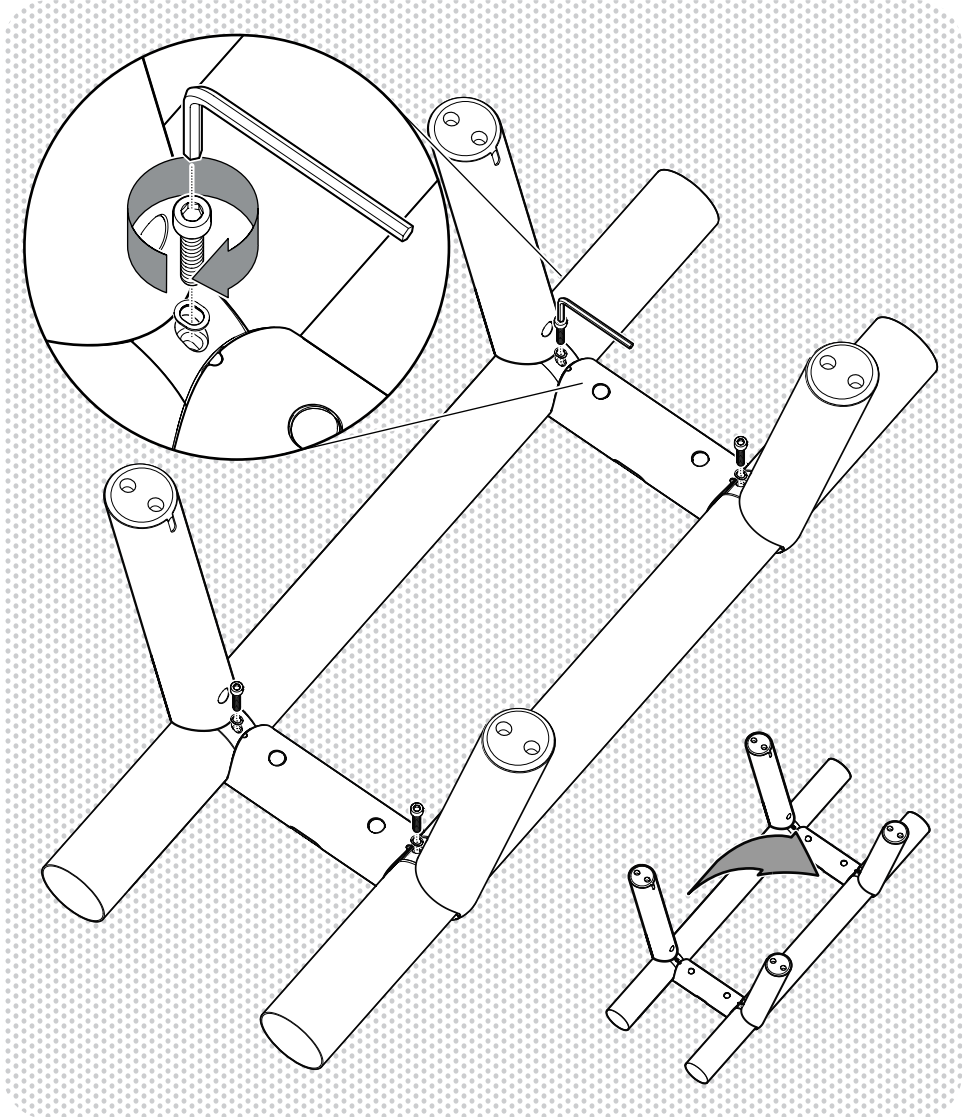

Keep going until you hear a click.  
This might require some extra force.

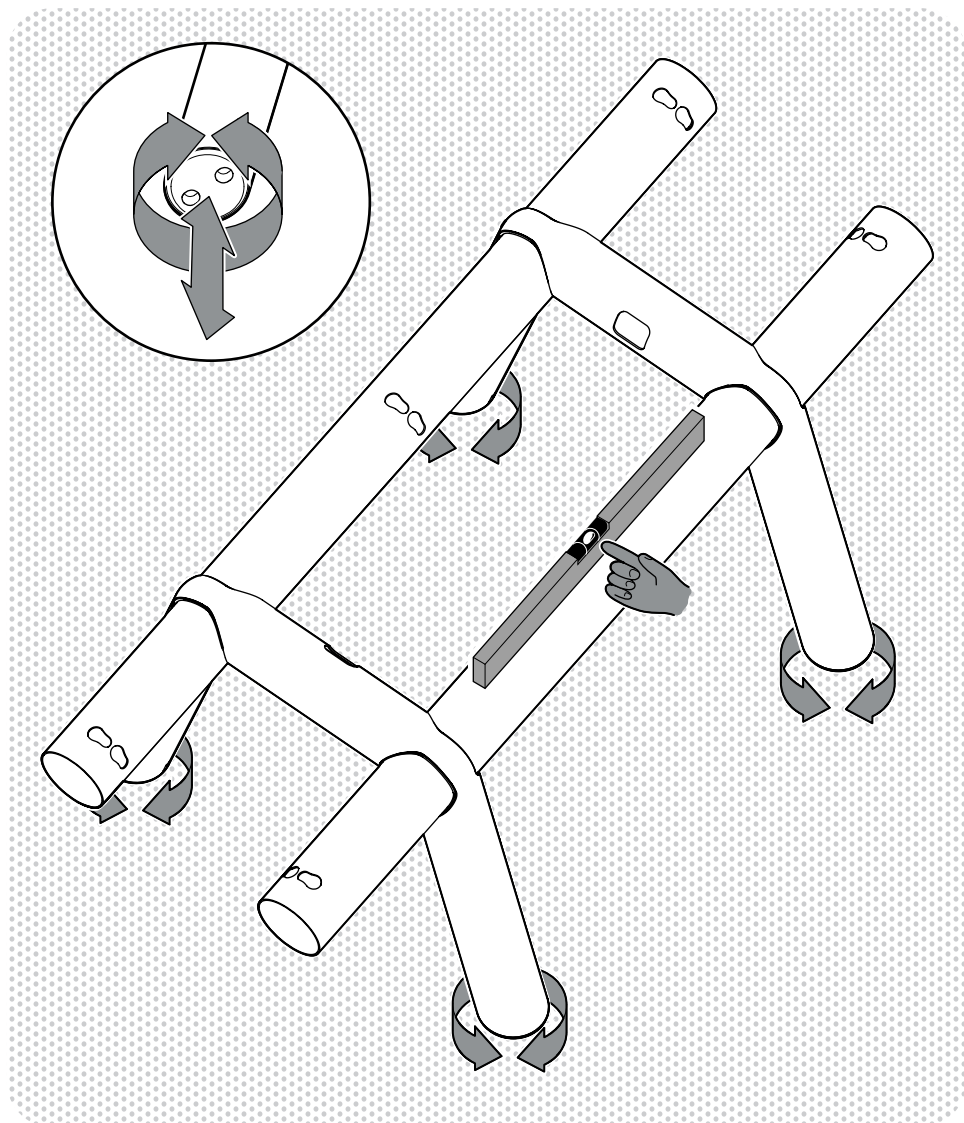

11.

Secure the legs with screws **C** with the washer **L** in between.  
Carefully tighten it with the Allen key **D**. Avoid scratching the frame.  
Flip the frame.

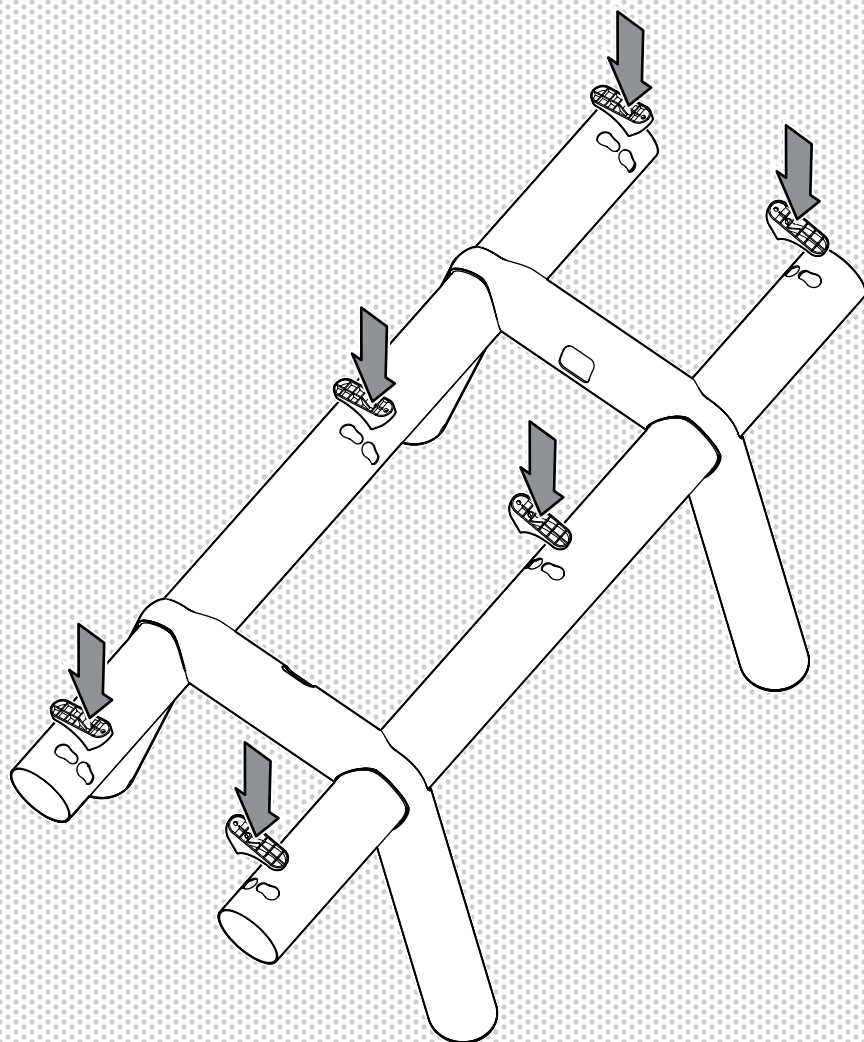

12.

If the floor is uneven, adjust the feet until the table is level.

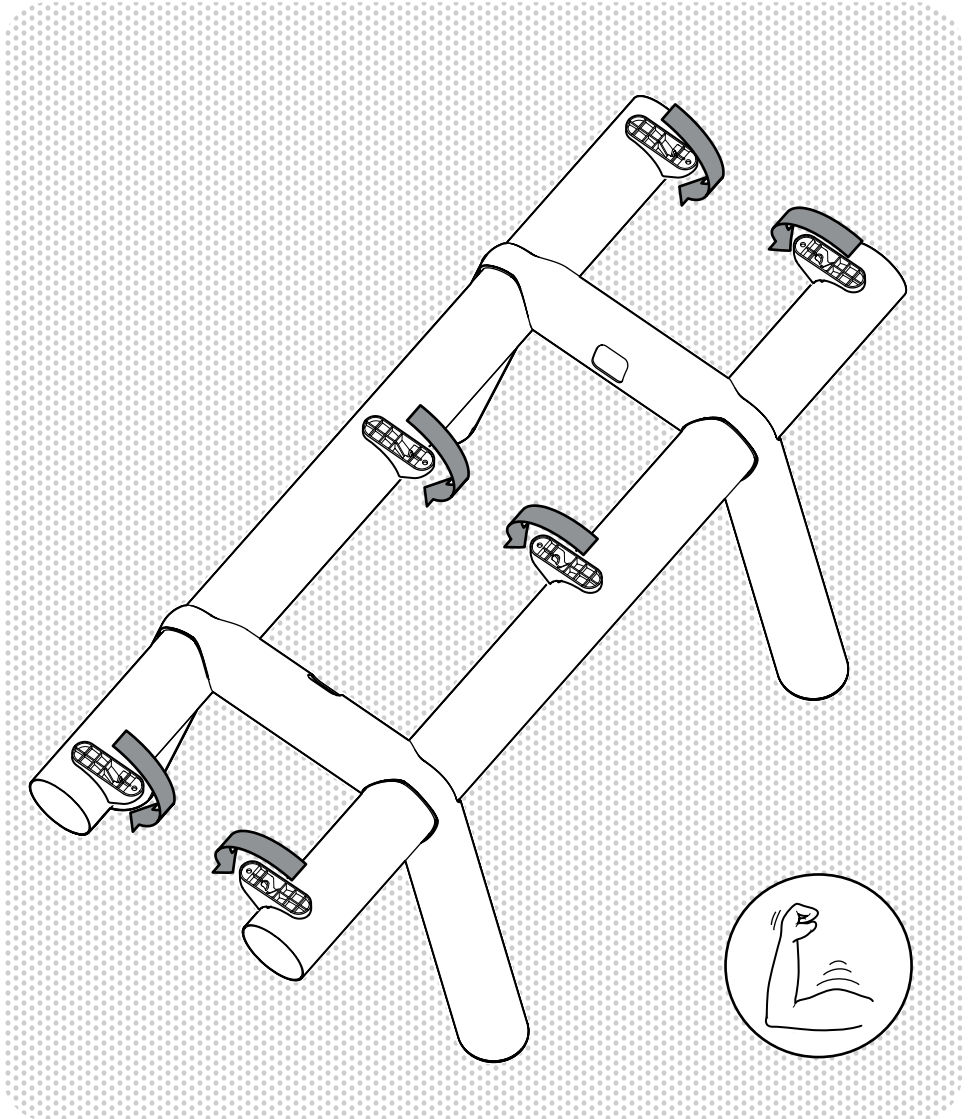

13.

Place the connectors.

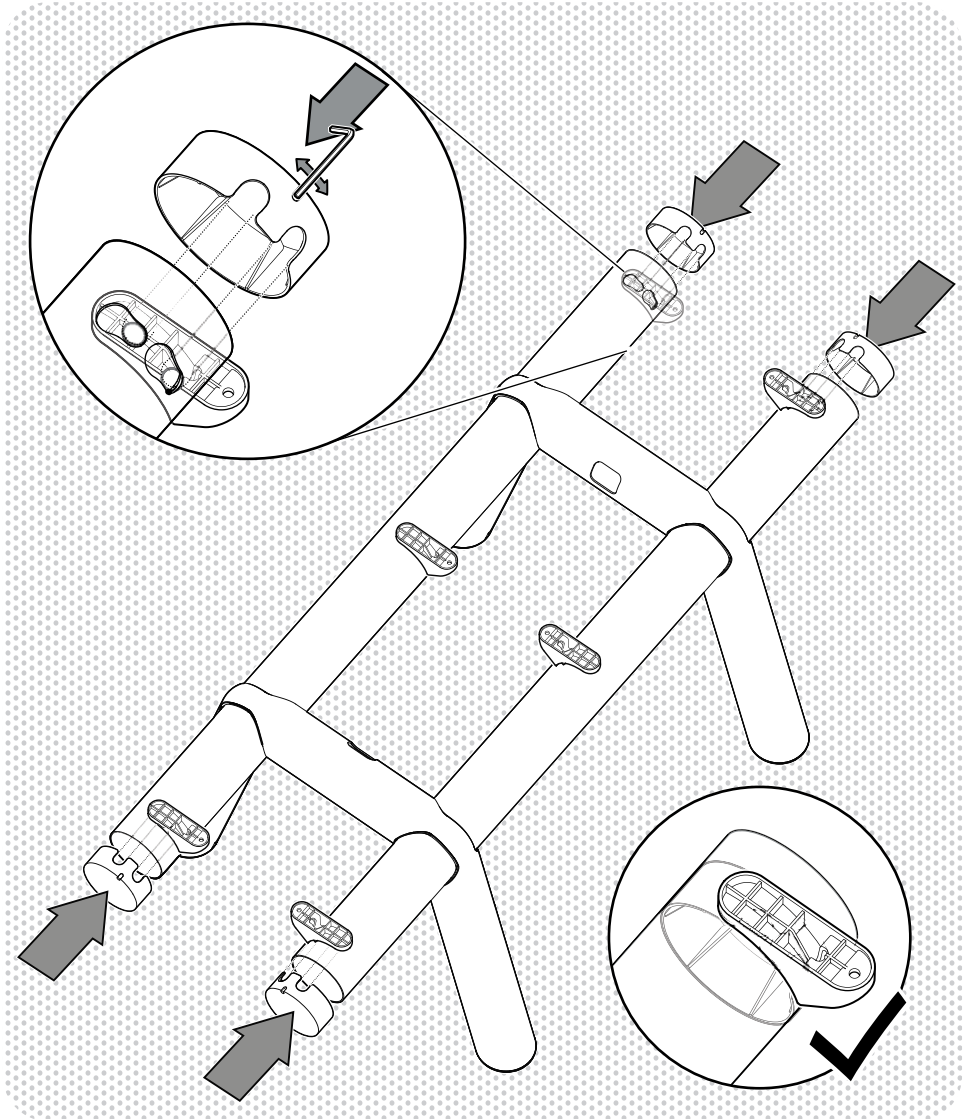

14.

Rotate the connectors towards the centre of the table so that they lock in place.  
This might require some extra force.

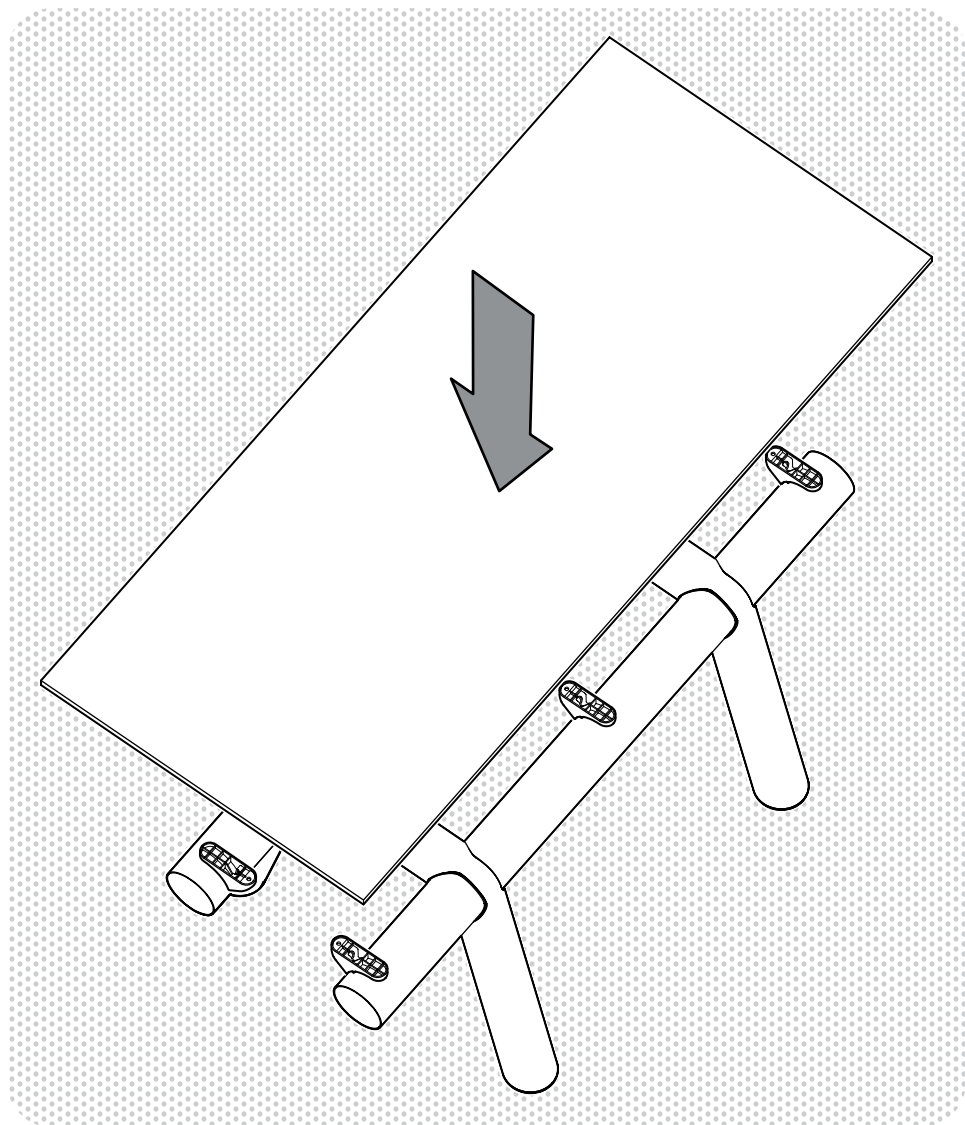

15.

Insert the end caps. Make sure they are aligned with the holes as illustrated.

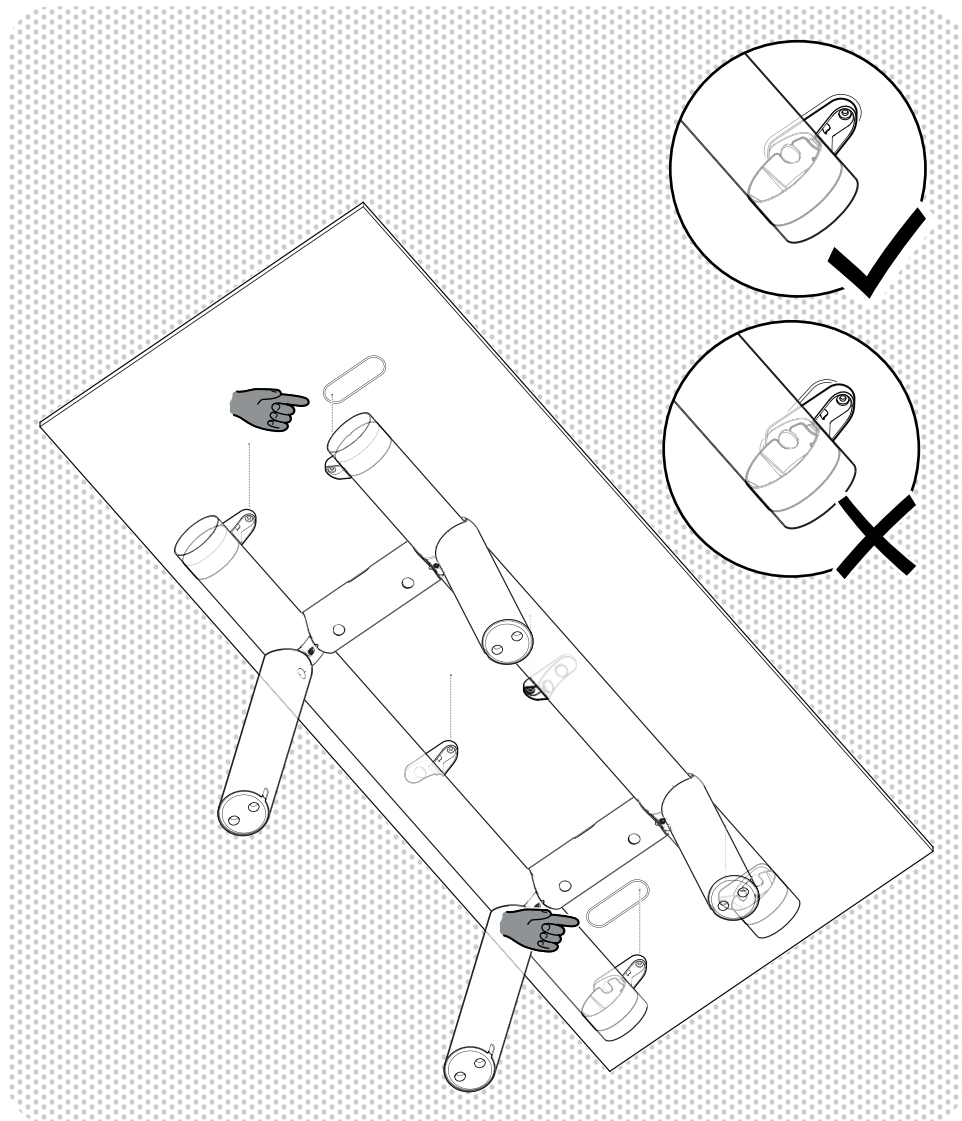

16.

Place the tabletop on top.

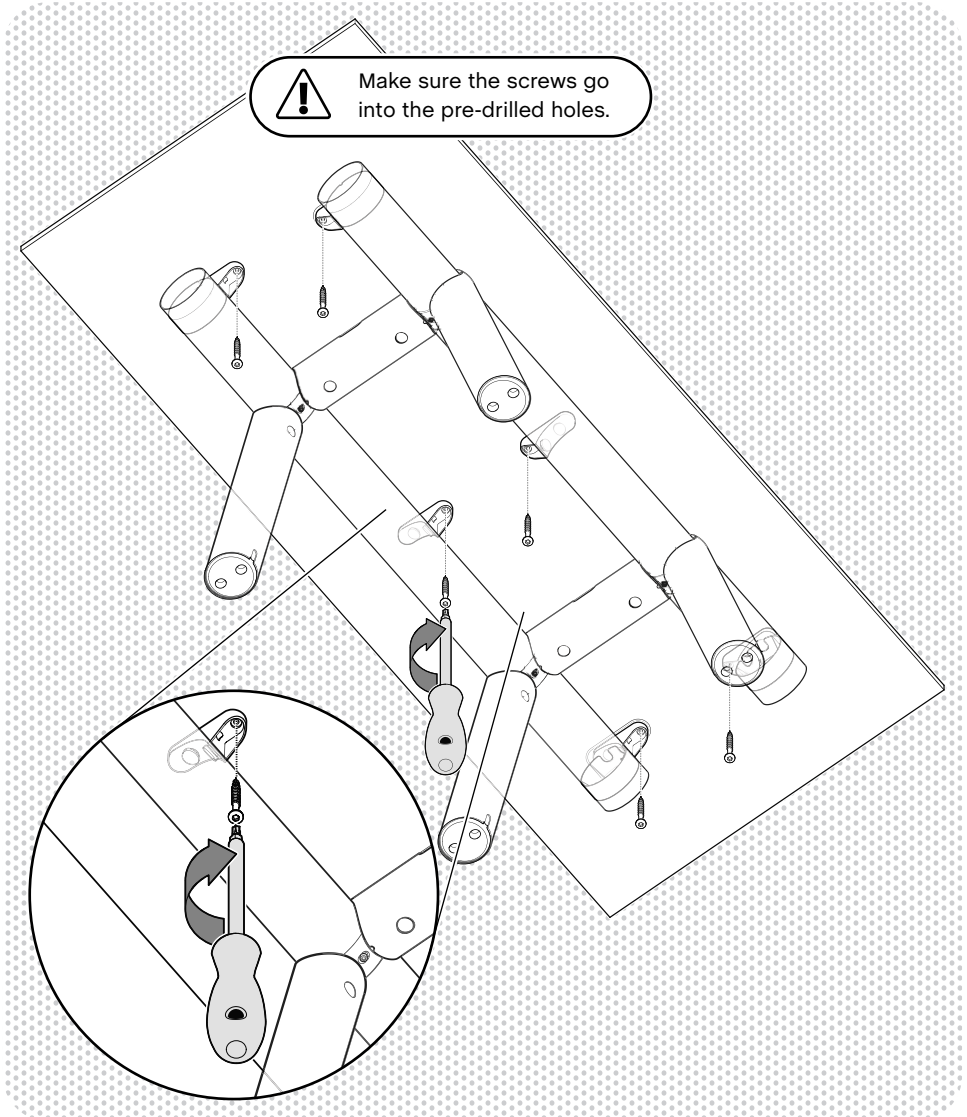

17.

Align the cut-out with the two connectors.

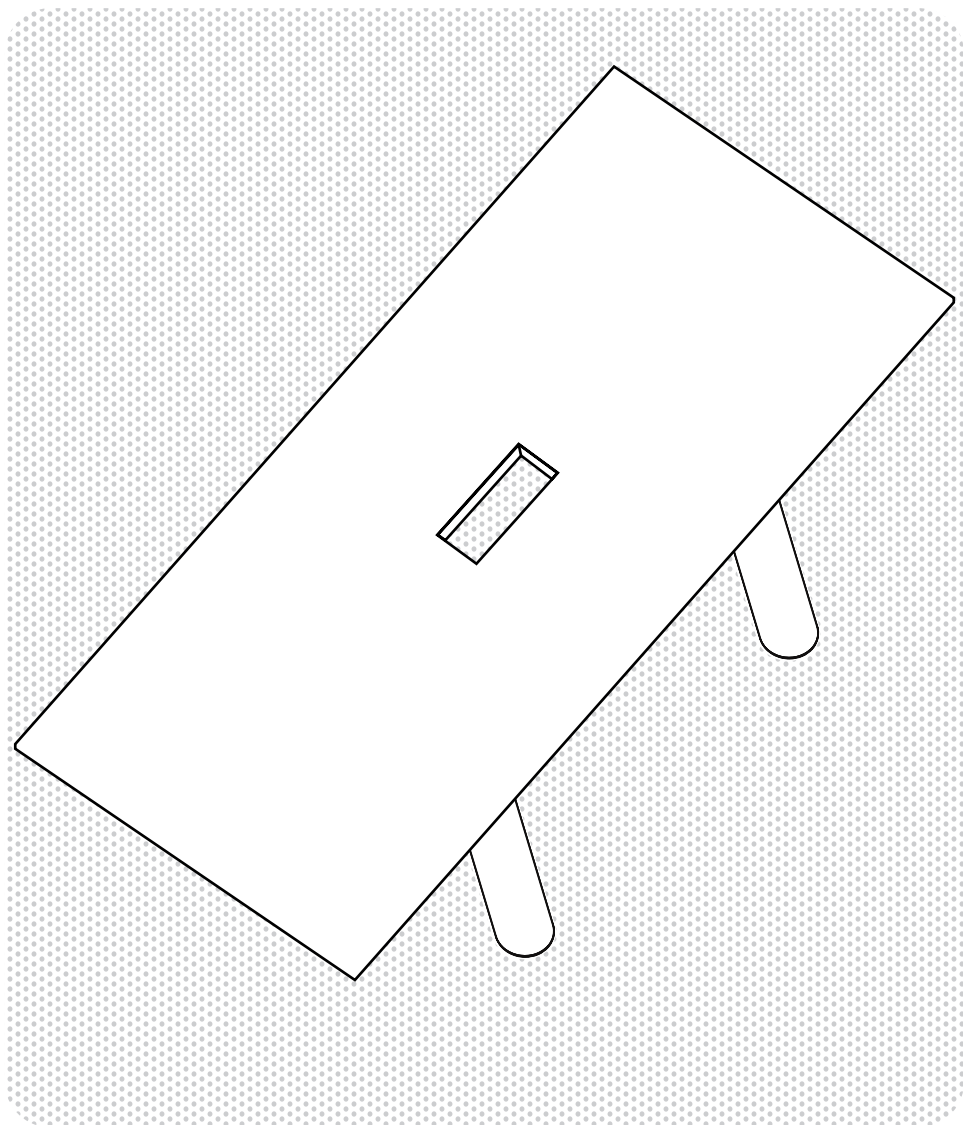

18.

Secure the table top with the screws **H**.  
Make sure the screws go into the pre-drilled holes.

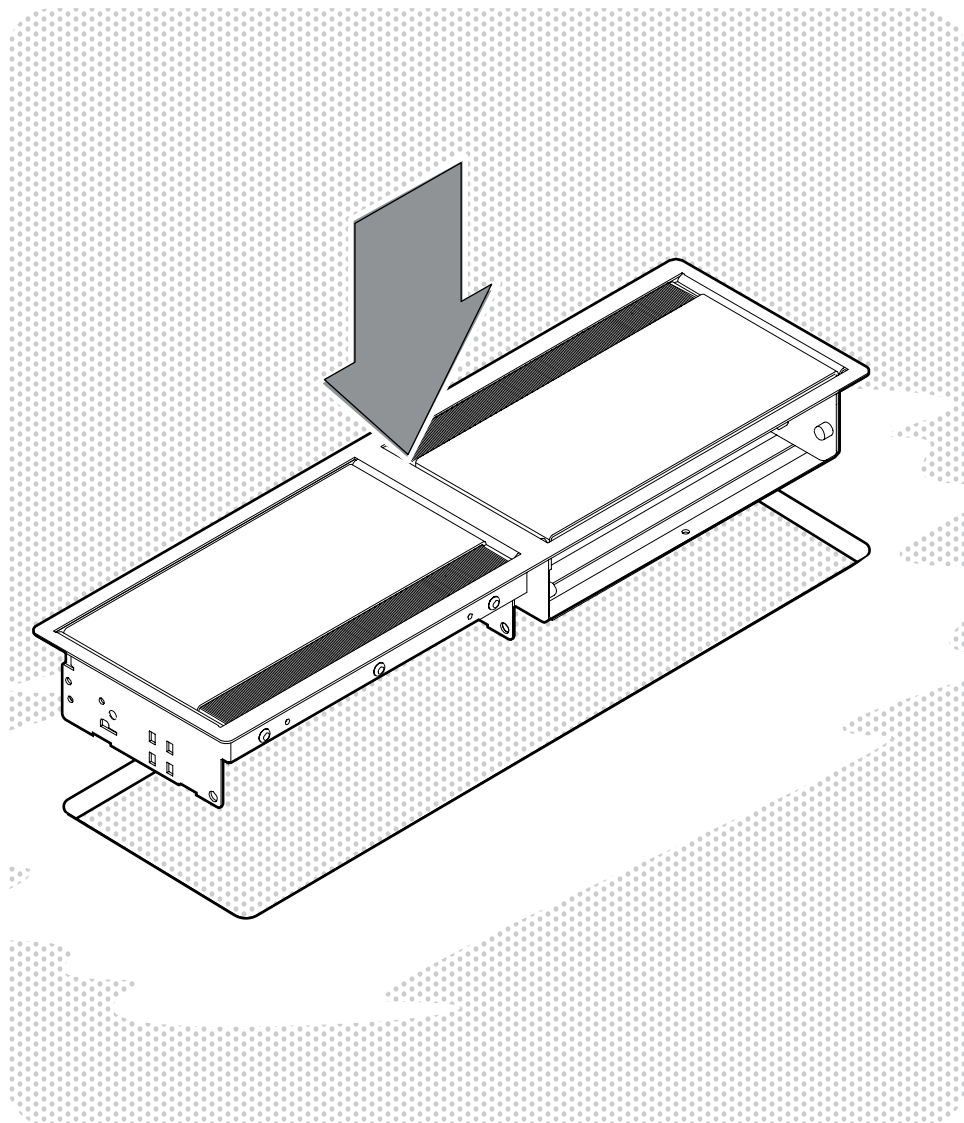

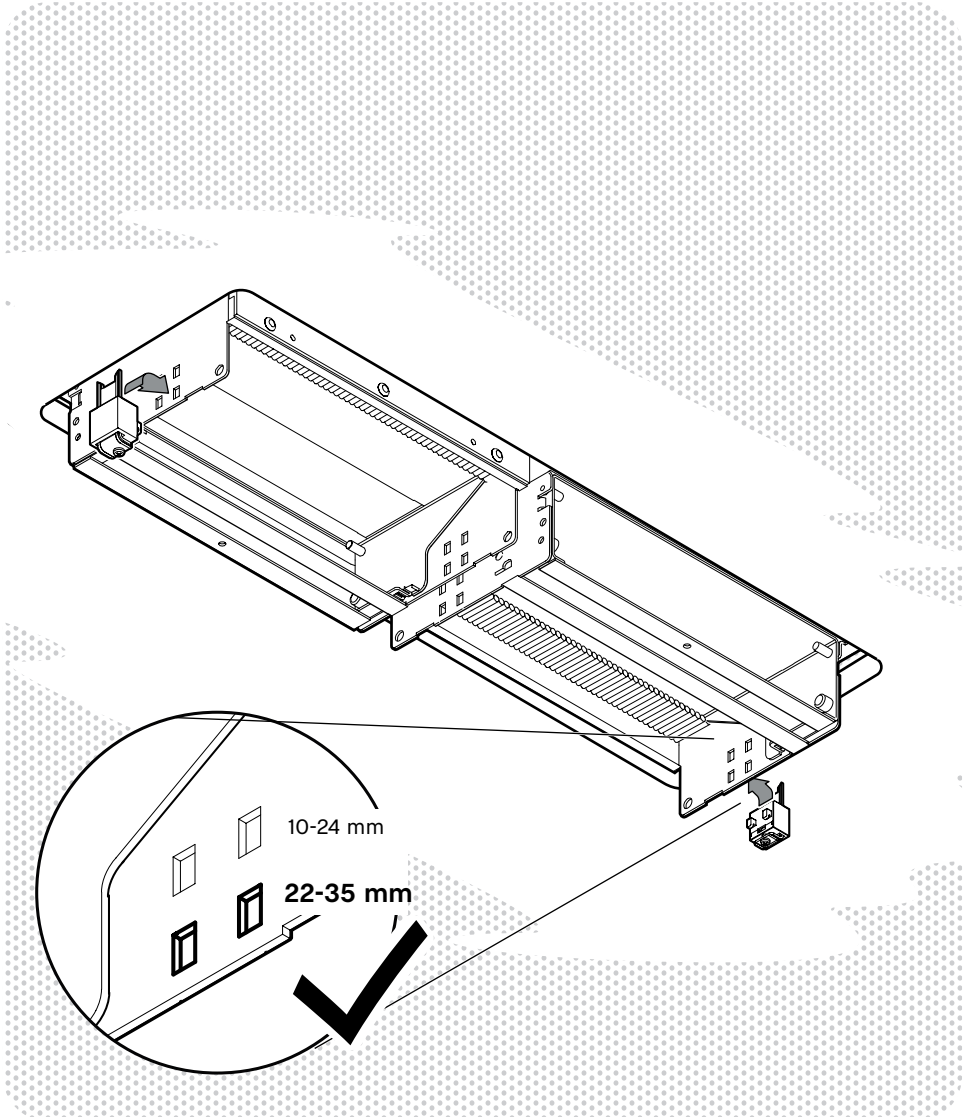

20.

Place the Coni Duo frame in the cut-out in the tabletop.

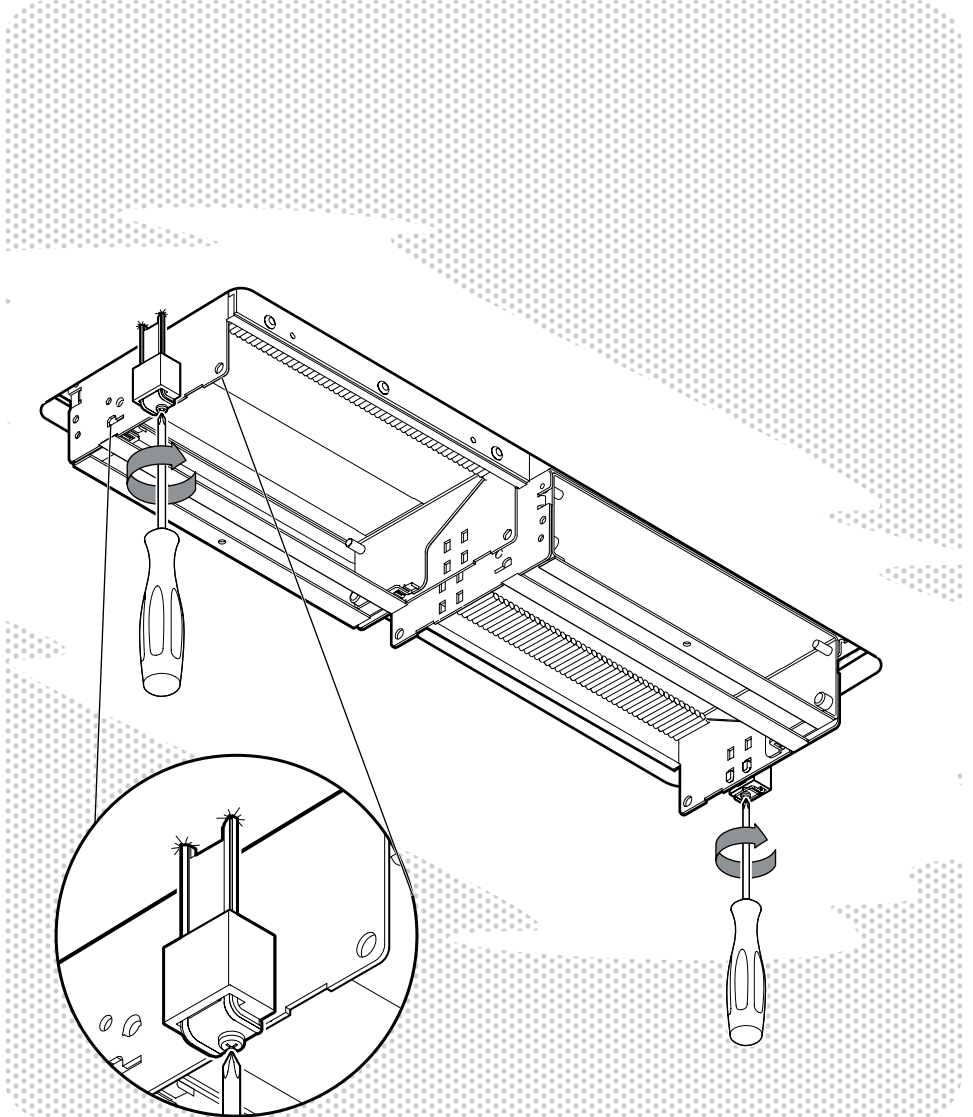

21.

Place the connectors in the holes on the side of the module as illustrated.  
Use the lower pair of holes for tabletops 22-35 mm thick.

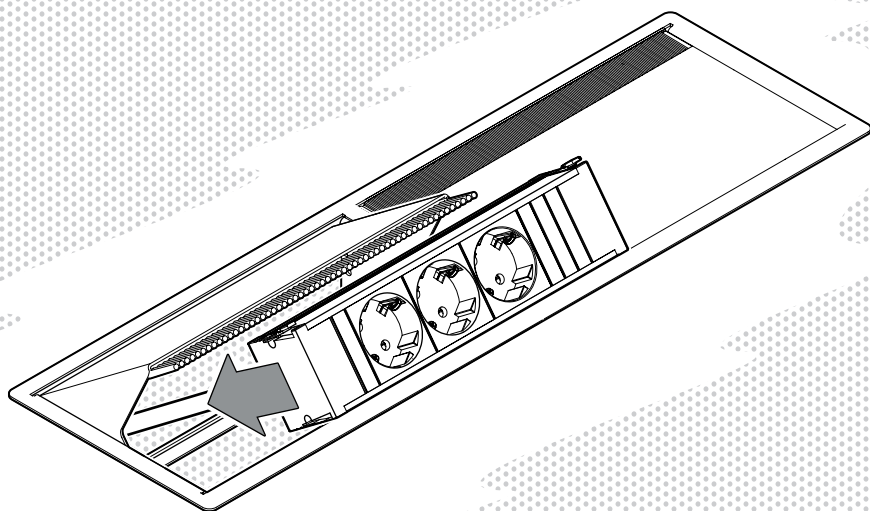

22.

Tighten the screws on the connectors into secure the module.

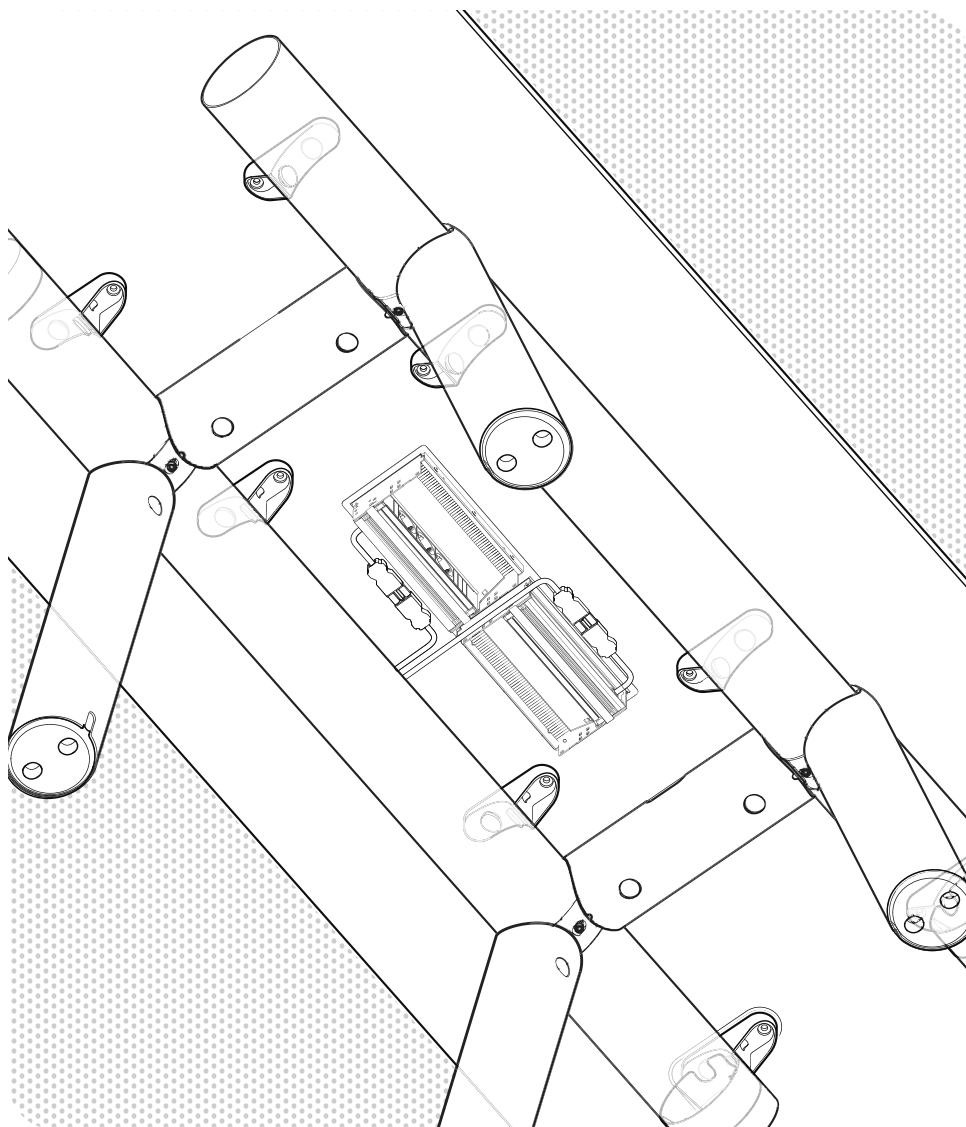

23.

Open the lid and insert the power module.

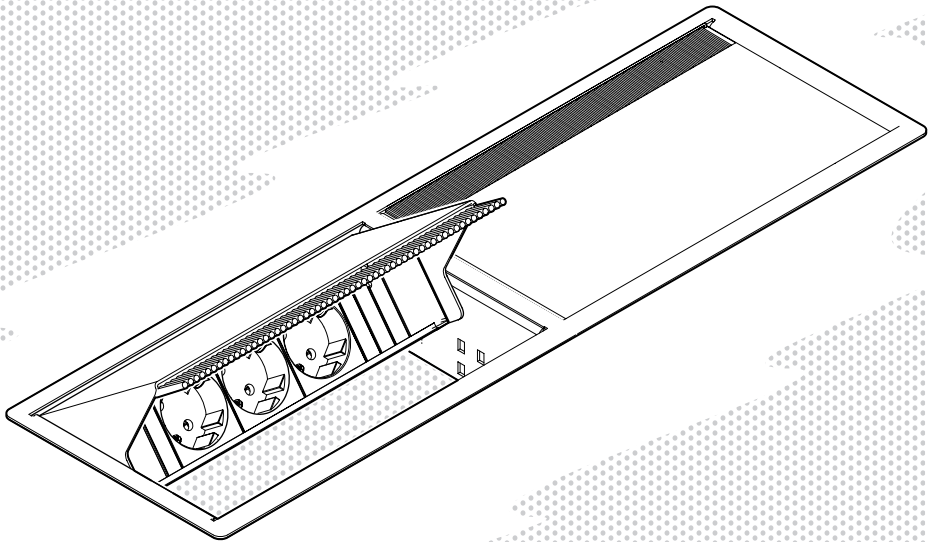

24.

Plug the supply cable to the modules.

25.

Done!

- CARE & MAINTENANCE -

Our Care & Maintenance offers guidance for optimal maintenance of your HAY product. It includes advice and instructions on cleaning and caring for specific materials to prolong the life of your furniture.
