

AAT 15

PRODUCT FACT SHEET

AAT 15

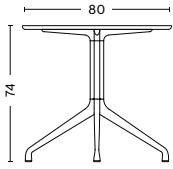

DESIGN BY HEE WELLING & HAY, 2012

The About A Table shares the general versatility and design language as the rest of the family. The table features the same powder coated frame as many of the chairs in the series, and the organic curves and raised feet convey a similar light expression. The tables are available with round or rectangular tabletops, with the round tabletop resting on a centred frame, while the rectangular version has its legs positioned at both ends and has a cross-bar construction. About A Table is available in two heights and a wide range of dimensions, enabling you to create a unique solution to match your needs.

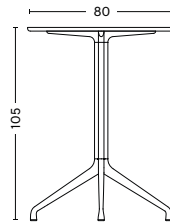

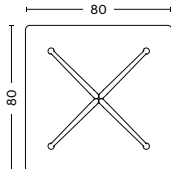

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.
- The table is available with square (AAT 15), rectangular (AAT 10) and round (AAT 20) tabletops.

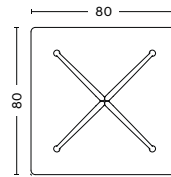

DIMENSIONS

LENGTH 80 CM
WIDTH 80 CM
HEIGHT 74 CM

LENGTH 80 CM
WIDTH 80 CM
HEIGHT 105 CM

MATERIALS

TABLETOP

25 mm plywood tabletop with linoleum or laminate with rounded edges

FRAME

4 legs in powder coated aluminium.

GLIDERS

Adjustable glider (on table height 74 cm).
Suitable for most floorings which are not too sensitive.

CONSTRUCTION

25 mm plywood tabletop with rounded edges. Frame in extruded profiles and diecast aluminium parts. The frame parts are fastened and locked with expansion elements and steel reinforcement brackets. The tabletop is mounted with self-tapping screws in predrilled holes.

Requires assembly.

COUNTRY OF ORIGIN

Denmark

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
