

REBAR TABLE

Design by Sylvain Willenz

HAY

Rebar Table

Sylvain Willenz's Rebar Tables are a series of coffee-, side- and tray tables that explores the possibilities of reconsidering construction materials and processes. The design juxtaposes the reinforced steel bar frame with marble tops and metal trays to create a balanced aesthetic. The tables are available in different sizes in round, square and rectangular shapes, with tabletops and frames offered in various colour options. Rebar's classic expression and numerous design possibilities make it suitable for using in a wide variety of private, corporate or public spaces.

REBAR TABLE COLLECTION

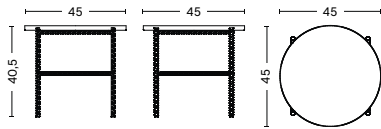

DESIGN BY SYLVAIN WILLENZ, 2018

Sylvain Willenz's Rebar collection is a series of coffee-, side- and tray tables that explores the possibilities of reconsidering construction materials and processes. The design juxtaposes the reinforced steel bar frame with marble tops and metal trays to create a balanced aesthetic. The tables are available in different sizes in round, square and rectangular shapes, and are suitable for using in private, corporate or public spaces.

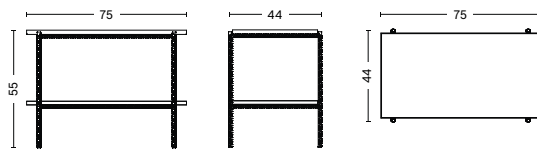

HIGHLIGHTS

- A series of marble-topped coffee and side tables in different colours and sizes.
- The tables are available in different sizes in round, square and rectangular shapes.
- Combines raw aesthetic with elegant marble to create unique contrasting design.
- Marble is a natural material, meaning each stone's unique colour, pattern and texture gives it a one-of-a kind quality.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

Colours and finish may vary slightly from product to product as marble is a natural material, and each stone has unique colour and pattern variations.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
