ECHOJAZZ – ACOUSTIC INSPIRATION

Ecological, robust, and versatile high-performance acoustic absorbers manufactured from recycled PET bottles. ECHOJAZZ creates custom-made individual solutions for a strong improvement of comfort and room quality in architecture, gastronomy, creative industry, open office spaces, and homes.

100% Swiss Design, 100% Zero Waste.

VERSION 20231212

UNLIMITED ACOUSTIC INSPIRATION

EchoBoard® and EchoCoustic® are the basic material for optimal room acoustics. All ECHOJAZZ acoustic products are produced from these absorbers. It can be processed in many ways to meet customer requirements.

ACOUSTIC CEILINGS

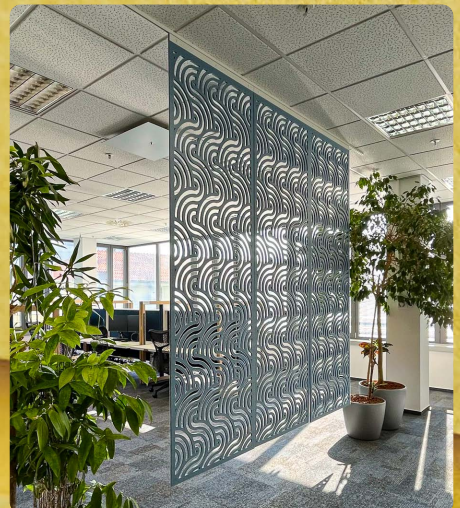

HIGH PERFORMANCE

The powerful acoustic absorbers from ECHOJAZZ are more ecological, more robust, lighter and more flexible in their application than comparable products. They are also emission-free and fulfil the highest European fire protection regulations.
